THIRD CONGRESS, INTERNATIONAL DIABETES FEDERATION

The Third Congress of the International Diabetes Federation will be held in Düsseldorf, Germany, July 21-25, 1958. The First Congress met in Leyden, The Netherlands, in 1952, and the Second Congress at Cambridge England, in 1955.

Professor Dr. K. Oberdisse, Düsseldorf, has been designated Chairman and Priv. Doz. Dr. K. Jahnke, Düsseldorf, Organizing Secretary, of the Congress. An Advisory Committee, Third Congress, International Diabetes Federation of the American Diabetes Association, has been appointed. Its members are: Howard F. Root, M.D., Chairman, Frank N. Allan, M.D., Garfield G. Duncan, M.D., Francis D. W. Lukens, M.D., and Franklin B. Peck, Sr., M.D. Dr. Root is a Vice President of the International Diabetes Federation and a Past President of the American Diabetes Association. Franklin B. Peck, Sr., M.D., Secretary of the Association, has been named official Medical Delegate to the Congress. Mr. J. Richard

Connelly, Executive Director, will serve as Lay Delegate. Additional information about the Congress will be published in future issues of this Journal.

RESEARCH FELLOWSHIPS AWARDED

The Committee on Research and Fellowships of the American Diabetes Association announces the award of three Research Fellowships for the 1957-58 academic year (July 1, 1957-June 30, 1958). Recipients include Wilson Randolph Tucker, M.D., Cincinnati, Ohio, Jefferson Earle White, Jr., M.D., Atlanta, Georgia, and Albert I. Winegrad, M.D., Philadelphia, Pennsylvania.

Dr. Tucker will study the experimental production of vascular lesions in the retina by administration of corticotropin or adrenal steroids, and the possible role of hyperlipemia in the genesis of such lesions. He will work with Chester Coggeshall, M.D., Chief, 1st Medical Service, St. Luke's Hospital, and Edwin F. Hirsch, M.D., Professor Emeritus of Pathology, University of Chicago.

Dr. White will work with Eugene A. Stead, Jr., M.D., Department of Medicine, Duke University School of Medicine, Durham, North Carolina. He will study the rate of utilization of ketone bodies (ketolysis) in the rat in varying states of endocrine and metabolic imbalance.

Dr. Winegrad will study the effect of various hexoses on unesterified fatty acids in plasma and in adipose tissue, in normals and in diabetics. He will work with Francis D. W. Lukens, M.D., The George S. Cox Medical Research Institute, Hospital of the University of Pennsylvania, Philadelphia.

The Committee on Research and Fellowships plans to award at least one Fellowship for the academic year 1958-59. The deadline for applications is Nov. 15, 1957. Requests for application forms and other inquiries should be addressed to Mr. J. Richard Connelly, Executive Director, who will forward the information to the Committee.

1958 LILLY AWARD

The second annual Lilly Award will be given at the Eighteenth Annual Meeting, June 21-22, 1958, in San Francisco. The following stipulations govern the contest for the award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal.

Purpose: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

Eligibility: Any investigator in an appropriate field of work closely related to diabetes who is less than forty

ORGANIZATION SECTION

years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nominations: Nominations for the award will be solicited from the members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before January 1 of the year of the award. The nomination should be accompanied by full information concerning the nominee's personality, training, and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to January 1 of the same year of the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in the program of the Annual Meeting of the Association, and the award presented at that meeting. The winner, subject to the approval of the Committee on Scientific Programs, will be invited to present a paper on the subject of his work. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and the medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.
