EIGHTEENTH ANNUAL MEETING

As previously announced, the Eighteenth Annual Meeting of the American Diabetes Association will be held at the Hotel Mark Hopkins in San Francisco, June 21-22, 1958, immediately prior to the Annual Session of the American Medical Association, June 23-27. Information about hotel reservations will be sent to members shortly.

SCIENTIFIC PROGRAM

Physicians and other scientists, who would like to present papers at the Scientific Sessions, are invited to sub-

mit abstracts to Francis D. W. Lukens, M.D., Chairman of the Committee on Scientific Programs. Eleven copies of the abstracts, which are requested in order to expedite review by the Committee, should be sent to Dr. Lukens in care of the national office.

#### 1958 LILLY AWARD

Jan. 1, 1958, is the deadline for nominations for the second annual Lilly Award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal. The Award will be given at the Eighteenth Annual Meeting of the American Diabetes Association in San Francisco, June 21-22, 1958. The following stipulations govern the contest.

*Purpose:* To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

*Eligibility:* Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

*Nominations:* Nominations for the award will be solicited from the members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before January 1 of the year of the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to January 1 of the same year of the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

*Announcement:* The name of the winner will be announced in the program of the Annual Meeting of the Association, and the award presented at that meeting. The winner, subject to the approval of the Committee on Scientific Programs, will be invited to present a paper on the subject of his work. Papers considered for the award must be submitted with the idea that they will

be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

*Award:* In addition to the monetary award and the medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

#### 1957-58 MEDICAL STUDENT-INTERN ESSAY CONTEST

Medical students, interns and physicians within two years after their graduation from medical school are invited to enter the sixth Medical Student-Intern Essay Contest sponsored by the American Diabetes Association. Any subject relating to diabetes and basic metabolic problems may be selected.

The author or authors of the best paper reporting original work, whether laboratory investigation or clinical observation, will receive an award of \$250. This prize is again made possible through the kindness of the St. Louis Diabetes Association.

The author or authors of the best review article or case report will be awarded a prize of \$50.

Papers will be judged on the basis of value of the material and method of presentation.

Members of the American Diabetes Association and subscribers to DIABETES are requested to encourage medical students and interns to enter the contest. Entrants should submit the original and two copies of their manuscript. The manuscript should be typewritten and double-spaced, and mailed by April 1, 1958, to: Committee on Scientific Awards, American Diabetes Association, Inc., 1 East 45th St., New York 17, N.Y.

#### IDF HOLDS THIRD CONGRESS

Members of the American Diabetes Association and its Affiliates may be able to fly by chartered plane at reduced rates to attend the next Congress of the International Diabetes Federation at Düsseldorf, Germany. Requests for passage on chartered plane must be received before Jan. 1, 1958. The Congress will be held July 21-25, 1958.

Howard F. Root, M.D., Vice President of IDF, requests those interested to address inquiries and reservations to the Manning Travel Bureau, Hotel Kenmore, Commonwealth Avenue, Boston, Massachusetts. Additional information will be sent to members of the American Diabetes Association in the near future.
