

## Correction: RSF1 Is a Positive Regulator of NF $\kappa$ B-induced Gene Expression Required for Ovarian Cancer Chemoresistance

In the original version of this article (1), there is an error in Fig. 6A. The NF $\kappa$ B panel in the lysate of SKOV3 and SKOV3<sup>TR</sup> cells was inadvertently duplicated in the NF $\kappa$ B panel of OVCAR3 and OVCAR3<sup>TR</sup> cells. The error has now been corrected in the latest online HTML and PDF versions of the article. The authors state that the correction does not affect the article's conclusions, as the results are fully consistent with those shown in the original figure. The authors regret this error.
