

Correction: Aspirin Suppresses the Growth and Metastasis of Osteosarcoma through the NF- κ B Pathway

Dan Liao, Li Zhong, Tingmei Duan, Ru-Hua Zhang, Xin Wang, Gang Wang, Kaishun Hu, Xiaobin Lv, and Tiebang Kang

In the original version of this article (1), there were three errors in Fig. 6: in Fig. 6A, the GADPH blots were inadvertently duplicated from Fig. 5D; in Fig. 6B, the image for Aspirin/NC was a duplicate of DMSO/sh#2; and in Fig. 6B, the Aspirin/vector image was a duplicate of Aspirin/sh#2. These errors have been corrected in the latest online HTML and PDF versions of the article. The authors regret these errors.
