

Members of the American Diabetes Association and subscribers to DIABETES are asked to encourage medical students, interns and physicians within two years after their graduation from medical school to enter the contest. Those entering should submit the original and two copies of their manuscripts. Manuscripts should be typewritten, double-spaced, and mailed by April 1, 1959, to: Committee on Scientific Awards, American Diabetes Association, Inc., 1 East 45th St., New York 17, N.Y.

### 1959 LILLY AWARD

As previously announced, the third annual Lilly Award will be given at the Nineteenth Annual Meeting of the American Diabetes Association, June 6-7, 1959, in Atlantic City, New Jersey. The following stipulations govern the contest for the award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal.

*Purpose:* To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

*Eligibility:* Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

*Nominations:* Nominations for the award will be solicited from the members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before January 1 of the year of the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to January 1 of the same year of the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

*Announcement:* The name of the winner will be announced in the program of the Annual Meeting of the Association, and the award presented at that meeting. The winner, subject to the approval of the Committee on Scientific Programs, will be invited to present a paper on the subject of his work. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

*Award:* In addition to the monetary award and the medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

### DEADLINE FOR RESEARCH FELLOWSHIP APPLICATIONS

The Committee on Research and Fellowships of the American Diabetes Association announces that applications for Research

Fellowships must be received on or before Nov. 15, 1958. At least one Fellowship for the academic year 1959-60 will be awarded. Requests for application forms and inquiries should be addressed to Mr. J. Richard Connelly, Executive Director, who will forward the information to the Committee.

### NOVEMBER 16-22 IS DIABETES WEEK

The forty-two Affiliate Associations of the American Diabetes Association and Committees on Detection of County and State Medical Societies are asked to note this date in making plans for development of Public Education and Detection programs. Members are urged to participate in their community campaigns.

The purpose of the year-round Diabetes Detection Drive, highlighted by Diabetes Week each year, is to find and help the nearly 1,000,000 men, women and children in this country who have diabetes but do not know it. The week which precedes Thanksgiving is the official Diabetes Week.

### ADA FORECAST RECIPE BOOK

A book of recipes and menus for diabetics, written by Deaconess Maude Behrman, will soon be published by the American Diabetes Association. Indexed and styled for ready use, it contains hundreds of food specialties which will be enthusiastically received by diabetics, their families and friends. Additional information including the date of publication will be announced.

### NEWS OF AFFILIATE ASSOCIATIONS

The CHICAGO DIABETES ASSOCIATION will conduct its second annual Symposium on Diabetes Mellitus at the Drake Hotel, Chicago, Monday, Nov. 17, 1958. The Woodyatt Memorial Lecture, entitled "The Islets of Langerhans," will be delivered by Francis D. W. Lukens, M.D., Professor of Medicine and Director of the George S. Cox Medical Research Institute, University of Pennsylvania School of Medicine.
