

ASSEMBLY OF DELEGATES

Henry E. Oppenheimer, M.D., of St. Louis, Chairman, and Mrs. Earl R. Hoover of Cleveland, Secretary, were re-elected to serve in these posts at the Annual Meeting of the Assembly of Delegates held on June 21, 1958, in San Francisco. By reason of this office, Dr. Oppenheimer serves as an ex officio member of the Council of the American Diabetes Association, and he is also the Association's Governor for the State of Missouri. Mrs. Hoover is a founder and Vice President of the Diabetes Association of Greater Cleveland.

1958-59 MEDICAL STUDENT-INTERN ESSAY CONTEST

The seventh Medical Student-Intern Essay Contest (1958-59) is open to medical students, interns and physicians within two years after their graduation from medical school.

The author or authors of the best paper reporting original work, whether laboratory investigation or clinical observation, will receive an award of \$250. This prize again has been made possible by the St. Louis Diabetes Association.

One hundred dollars (\$100), double the award in previous years, will be given for the best review article or case report.

The papers will be judged on the basis of the value of the material and the method of presentation. Any subject relating to diabetes and basic metabolic problems may be selected. Those entering should submit the original and two copies of their manuscripts. Manuscripts should be typewritten, double-spaced, and mailed by April 1, 1959, to: Committee on Scientific Awards, American Diabetes Association, Inc., 1 East 45th St., New York 17, N.Y.

Members of the American Diabetes Association and subscribers to DIABETES are asked to encourage medical students, interns and physicians within two years after their graduation from medical school to enter the contest.

JANUARY 1 DEADLINE FOR 1959 LILLY AWARD

Nominations for the third Lilly Award, which will be given at the Nineteenth Annual Meeting of the American Diabetes Association, June 6-7, 1959, in Atlantic City, New Jersey, must be received by the Association before Jan. 1, 1959. The following stipulations govern the contest for the annual award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal.

Purpose: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

Eligibility: Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nominations: Nominations for the award will be solicited from the members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before January 1 of the year of the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six

copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to January 1 of the same year of the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in the program of the Annual Meeting of the Association, and the award presented at that meeting. The winner, subject to the approval of the Committee on Scientific Programs, will be invited to present a paper on the subject of his work. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and the medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

NEW ADA FORECAST REPRINT SERIES

The Editors of FORECAST and the Committee on Information for Diabetics of the American Diabetes Association have reprinted ten additional articles from recent issues. They will help your patients and their families to understand the condition and thus to control it better. The new reprints are entitled: "The Oral Hypoglycemic Compounds"; "The Truth about Life Insurance for Diabetics"; "Does Sugar in the Urine Always Mean Diabetes?"; "Certification of Insulin"; "What Do You Want to Know about Diabetes?"; "The Seven Wonders of a Slice of Bread"; "Storm Warning!"; "A Behind-the-Scenes Look at Modern Insulin Production"; "Medical Quacks and Fakers"; "Diabetes and Arteriosclerosis."

Thirty-seven earlier reprints are also available. Write to American Diabetes Association, Inc., 1 East 45th St., New York 17, N.Y., for a complete list and an order form. All reprints are priced at ten cents each or three for twenty-five cents, which includes postage and handling. Order forms and quantity prices are available.
