

Erratum

In the Volume 69 (Supplement 2) article “Ability of the National Board for Certification in Occupational Therapy Practice Test to Estimate the Probability of First-Time Pass Status on the National Certification Exam” (Avi-Itzhak, 2015), text on p. 4 has been corrected to read “For Domain 2, each 1% performance ratio increase produced a decrease of 13% ($100[0.870 - 1] = -13$) in the odds of first-time no-pass status (Table 3).”

NEW EDITION OF BESTSELLER!

Occupational Therapy Practice Framework: Domain and Process, 3rd Edition

By American Occupational Therapy Association

This official AOTA document, which is intended for occupational therapy practitioners and students; other health care professionals, educators, and researchers; payers; and consumers, describes the central concepts that ground occupational therapy practice and builds a common understanding of the basic tenets and vision of the profession. Embedded within this document is the profession's core belief in the positive relationship between occupation and health and its view of people as occupational beings.

The *Framework* articulates occupational therapy's contribution to promoting the health and participation of people, organizations, and populations through engagement in occupation. The revisions in this edition refine the document and include language and concepts relevant to current and emerging occupational therapy practice. Numerous tables and resource materials are also included.
