

## Erratum

In the article “Activity Engagement and Everyday Technology Use Among Older Adults in an Urban Area,” by Ryan Walsh, Ruxandra Drasga, Jenica Lee, Caniece Leggett, Holly Shapnick, and Anders Kottorp (Volume 72, No. 4, <https://doi.org/10.5014/ajot.2018.031443>), the information in Table 1 for functional level in the “High AE” group should appear as follows:

Characteristic	AE Group, <i>n</i> (%)		
	Low ( <i>n</i> = 20)	Medium ( <i>n</i> = 34)	High ( <i>n</i> = 56)
Functional level <sup>a</sup>			
1	0 (0)	0 (0)	0 (0)
2	10 (50.0)	10 (29.4)	7 (12.5)
3	6 (30.0)	14 (41.2)	17 (30.4)
4	4 (20.0)	0 (29.4)	32 (57.1)

*Note.* AE = activity engagement.

<sup>a</sup>1 = client needs maximum assistance to live in the community; 2 = client needs moderate assistance to live in the community; 3 = client needs minimal assistance to live in the community; 4 = client can live independently in the community.

The authors found the errors in a reanalysis of the data and audit of the physical records. The integrity of the analyses and other descriptive data was not affected by the errors. ■
