

Correction: Δ Np63 Versatilely Regulates a Broad NF- κ B Gene Program and Promotes Squamous Epithelial Proliferation, Migration, and Inflammation

In this article (Cancer Res 2011;71:3688–700), which was published in the May 15, 2011, issue of *Cancer Research* (1), the graph in Fig. 7D was mislabeled because of a production error. The corrected figure appears below.

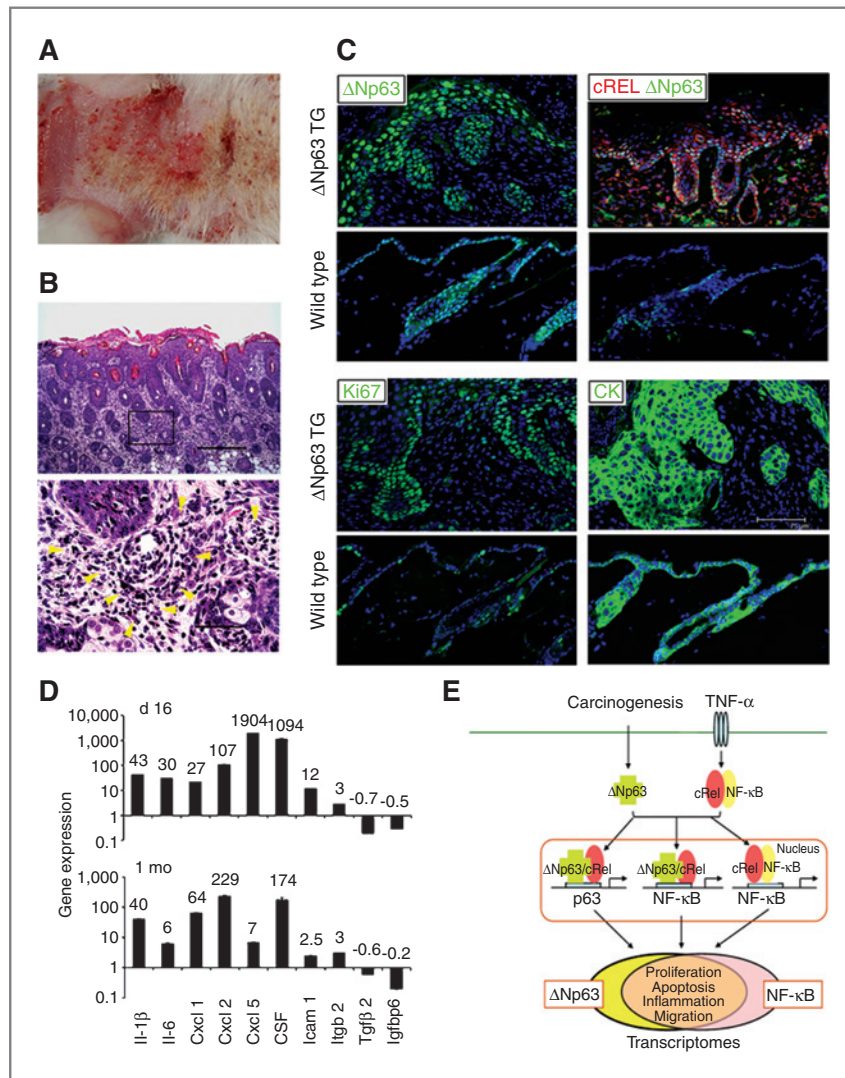

Figure 7.
