AJOT Mission: The primary mission of *AJOT* is to publish research examining the effectiveness and efficiency of occupational therapy practice so that occupational therapy professionals can make informed, evidence-based decisions about best practice. In addition, the journal aims to publish (1) research documenting the reliability and validity of occupational therapy instruments; (2) studies demonstrating a relationship between occupational engagement and the facilitation of community participation and health; and (3) articles that provide a forum for scholars to debate professional issues that affect education, practice, and research.

AOTA Mission: The American Occupational Therapy Association advances the quality, availability, use, and support of occupational therapy through standard-setting, advocacy, education, and research on behalf of its members and the public.

AOTA Vision 2025: Occupational therapy maximizes health, well-being and quality of life for all people, populations and communities through effective solutions that facilitate participation in everyday living.

Call for Authors

Health Policy Perspectives

Do you have a perspective on occupational therapy practice in the changing health care system? What federal, state, or local policy questions are critical to occupational therapy? Do you have thoughts about the larger world of health care reform that relate to public policy?

The *AJOT* Health Policy Perspectives column provides an opportunity for expression of thoughtful opinions. The column is a forum for views; calls to action for the profession on practice, education, outreach, and research; and perspectives on the intersection of occupational therapy and health care policy. Original research is not required, although preference is given to articles that draw on research.

Interested authors should contact Sabrina Salvant, column editor, at ssalvant@aota.org, with a short paragraph describing the proposed column. Column manuscripts should be submitted through the *AJOT* manuscript processing system and should adhere to the requirements outlined in the *AJOT* "Guidelines for Contributors."
