DELEGATES TO NATIONAL HEALTH COUNCIL

Arthur R. Colwell, Sr., Herbert Pollack, J. Richard Connelly

JANUARY 1 DEADLINE FOR 1960 LILLY AWARD

Nominations for the fourth Lilly Award must be submitted to the American Diabetes Association before Jan. 1, 1960. The annual award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal, will be presented at the Twentieth Annual Meeting of the ADA June 11-12, 1960. The following stipulations govern the contest.

Purpose: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

Eligibility: Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nominations: Nominations for the award will be solicited from the members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before January 1 of the year of the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to January 1 of the same year of the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in the program of the Annual Meeting of the Association, and the award presented at that meeting. The winner, subject to the approval of the Committee on Scientific Programs, will be invited to present a paper on his work. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

8th GRADUATE AND MEDICAL STUDENT-INTERN ESSAY CONTEST

The 1959-60 Graduate and Medical Student-Intern Essay Contest is open to graduate students, medical students, interns and physicians within two years after their graduation from medical school.

An award of \$250 will be given to the author or authors of the best paper reporting original work, whether laboratory investigation or clinical observation. One hundred dollars (\$100) will be awarded for the best review article or case report.

The papers will be judged on the basis of the value of the material and method of presentation. Any subject relating to diabetes and basic metabolic problems may be selected.

Members of the American Diabetes Association and subscribers to DIABETES are asked to encourage graduate students, medical students, interns and physicians within two years after their graduation from medical school to enter the contest.

Contestants should submit the original and two copies of their papers. Typewritten and double-spaced, all manuscripts should be mailed by April 1, 1960, to: Committee on Scientific Awards, American Diabetes Association, Inc., 1 East 45th St., New York 17, N. Y.
