

PHYLLIS GRANT, M.D.

J. WILLIAM ALLGOOD

Alpha Omega Alpha Scholastic Medical Society, of which he is President of the Medical College of South Carolina chapter; Student American Medical Association; Honor Council of Medical College of South Carolina. Fellowships include: Lederle Research Fellowship with Dr. Curtis Worthington, Department of Anatomy, Medical College of South Carolina (1958); National Institutes of Health Research Fellowships with Drs. John and Maria Buse, Department of Medicine, Medical College of South Carolina (1959-60). He has published "Initiation of Blanch-blush Cycles in the Mouse Uterus by Cholinergic Drugs." His present plans are to proceed to an internship and residency training in internal medicine.

"The Role of Potassium in the Therapy of Diabetic Acidosis," is the title of Dr. Grant's paper which was selected as the best in the category of review article or case report. Dr. Grant was born in New Jersey, and took her premedical work at Douglass College, New Brunswick, New Jersey, where she was graduated in 1956 with a B.A. degree. She attended Kansas University School of Medicine and received her M.D. degree in June 1960. Dr. Grant has worked in the Department of Physiology of Kansas University, and has externed at New England Hospital in Boston. She is at present interning at Wesley Hospital in Wichita. Her plans are to specialize in pediatrics.

Dr. Williamson, whose paper "Electron Microscopy of Glycogenic Changes in Beta Cells in Experimental Diabetes," won him honorable mention, was born in Enid, Oklahoma, in 1931. He received his B.A. degree from Phillips University in 1954 and his M.D. (cum laude), from Washington University in 1958. He has held the following positions: Co-Chief Resident in Pathology, Barnes Hospital; Assistant in Pathology, Washington University School of Medicine; National Cancer Institute Trainee; Trainee (N.C.I.) in Experimental Pathology; Assistant Resident in Pathology, Barnes Hospital; and Intern in Pathology, Barnes Hospital. Dr. Williamson is married and the father of two children.

Dr. Lawrence, whose paper entitled "Studies in Reproductive Physiology in the Alloxan Diabetic Female Rat: The Endocrine Basis for Impairment of Reproductive Function in Diabetes Mellitus," won honorable mention, received her B.A. from Barnard College (Columbia University) in 1952, and did graduate study at Stanford University until 1953 and at the University Laboratories of Physiology, University of Oxford, until 1954. She received a degree of Ph.D. at the Depart-

ment of Anatomy, University of California at Berkeley, on studies in endocrinology. She is at present a rotating intern at the University of Chicago Clinics. She received her M.D. degree at the University of California School of Medicine in San Francisco this year. It is her intention to undertake residency training in internal medicine at the conclusion of her internship. She is married to a member of the faculty at the University of Chicago, and has a son born this April.

Dr. Hanauer, who with Dr. Batson wrote the paper entitled "Anaphylactic Shock Following Insulin Injection: Case Report and Review of the Literature," which received honorable mention, was born in New York City in 1935. He received his A.B. degree from Cornell University in 1956, and was graduated from Cornell Medical College in 1960. He is married and interning at Beth Israel Hospital in Boston.

Dr. Batson was graduated from Vanderbilt University Medical College in 1958, after completing his academic education at Vanderbilt University. He interned and was medical resident at The New York Hospital and is at the present time at Vanderbilt Hospital in Nashville completing his residency. He is married and the father of two young sons.

1960-61 GRADUATE AND MEDICAL STUDENT-INTERN ESSAY CONTESTS

Members of the American Diabetes Association and subscribers to DIABETES are asked to encourage medical students, interns, and physicians within two years after their graduation from medical school, and graduate students in the basic sciences to enter the ninth Graduate and Medical Student-Intern Essay Contests.

\$250 Prize—for the best paper reporting original work, whether laboratory investigation or clinical observation.

\$100 Prize—for the best review article or case report.

The prize-winners as well as those receiving honorable mention also are given a one-year's subscription to DIABETES: *The Journal of the American Diabetes Association*.

The papers will be judged on the basis of the value of the material and method of presentation. Any subject relating to diabetes and basic metabolic problems may be selected.

Papers entered in the Contest should not have been previously published. Appropriate manuscripts will be considered for publication in DIABETES.

Contestants should submit the original and two copies of their papers. Typewritten and double-spaced, all manuscripts should be mailed with a letter of transmittal by March 15, 1961, to: Committee on Scientific Awards, American Diabetes Association, Inc., 1 East 45th Street, New York 17, N. Y.

21ST ANNUAL MEETING

As previously announced, the Twenty-first Annual Meeting of the American Diabetes Association will be held in New York City, June 24-25, 1961, at the Commodore Hotel, prior to the annual session of the American Medical Association.

Physicians and other scientists who would like to present papers at the Scientific Sessions are invited to submit abstracts to Jerome W. Conn, M.D., Chairman of the Committee on Scientific Programs. Seven copies of the abstracts, which are requested in order to expedite review by the Committee, should be sent as soon as possible, but not later than March 1, 1961, to Dr. Conn in care of the national office.

The Twenty-second Annual Meeting will be held June 9-10, 1962, at the Conrad Hilton Hotel, Chicago.

1961 LILLY AWARD

Dec. 1, 1960, is the deadline for receipt of nominations for the fifth Lilly Award which will be given at the Twenty-first Annual Meeting, June 24-25, 1961, in New York City. This annual award is supported by Eli Lilly and Company and consists of \$1,000 and a medal. The following stipulations govern the contest.

Purpose: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

Eligibility: Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nominations: Nominations for the award will be solicited from the members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before December 1 of the year preceding the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to December 1 of the year preceding the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in the program of the Annual Meeting of the Association, and the award presented at that meeting. The winner, subject to the approval of the Committee on Scientific Programs, will be invited to present a paper on his work. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

NOVEMBER 15 DEADLINE FOR RESEARCH FELLOWSHIP APPLICATIONS

The Committee on Research and Fellowships of the American Diabetes Association will award three Research Fellowships for the academic year July 1, 1961—June 30, 1962. Nov. 15, 1960, is the deadline for receipt of applications. Requests for application forms and other inquiries should be addressed to Mr. J. Richard Connelly, Executive Director, who will forward the information to the Committee.

4TH CONGRESS OF THE INTERNATIONAL DIABETES FEDERATION

A chartered plane will be available to members of the American Diabetes Association and its Affiliates who wish to attend the Fourth IDF Congress in Geneva, Switzerland, July 10-14, 1961. The plane will leave New York in the late morning of Saturday, July 8, 1961, and will stop at Boston. The fare, including the return flight four weeks later, will be somewhat less than \$300. Those interested in this group transportation should communicate as soon as possible with Howard F. Root, M.D., 15 Joslin Road, Boston 15, Mass.

J. P. Hoet, M.D., Louvain, is President of the IDF and Eric Martin, M.D., Geneva, is President of the Organizing Committee of the Congress. The ADA Advisory Committee for the program includes Howard F. Root, M.D., Boston, Chairman; Alexander Marble, M.D., Boston; and Franklin B. Peck, Sr., M.D., Indianapolis.

All communications concerning the Congress should be addressed to the Secretary General, Bernard Rilliet, M.D., 4, Boulevard des Tranchees, Geneva, Switzerland.

The complete and final program of the Congress will be published in a subsequent issue of DIABETES: *The Journal of the American Diabetes Association*.

DIABETES WEEK NOVEMBER 13-19

Affiliates of the American Diabetes Association and Committees on Diabetes of County and State Medical Societies are urged to prepare final plans for their Public Education and Detection programs now, which in accordance with custom will be highlighted by Diabetes Week which immediately precedes Thanksgiving. The Organization Kit was mailed August 19, and an announcement concerning the availability of testing materials and reagents was sent out August 16. These will be followed by a Newspaper Publicity Kit and a TV-Radio Unit. Report forms will be mailed just prior to Diabetes Week.

Joseph H. Crampton, M.D., is Chairman of the Committee on Public Education and Detection.

Address your requests for information concerning available services and supplies to Mr. J. Richard Connelly, Executive Director, American Diabetes Association, Inc., 1 East 45th Street, New York 17, N. Y.

For a preview of the new Diabetes Week poster in black and white, see page A-6 of this issue of the Journal. In its original form, the poster is black, white, red and yellow.

NEW MEMBERS

The following were elected as of Aug. 1, and Sept. 1, 1960:
Active

<i>Alabama</i>	
Yeagan, Reagan L., Jr.	Evergreen
<i>California</i>	
Donnell, George N.	Los Angeles
Sherwood, Frederick	Oakland
Splitter, Stanford D.	Berkeley
<i>District of Columbia</i>	
Shocken, Victor	Washington
<i>Illinois</i>	
Bernet, Henry S.	Springfield
