

INDEX

Below, you can find the page(s) on which the listed terms appear. Boldface numbers refer to the page where terms are defined.

- Algebraic topology, 127
- Axiom of choice, 163

- Binomial coefficient, 27, 45, 148

- Code, 6
 - error correcting, 8
 - Hamming, 8
 - linear, 157
 - perfect, 8
- Combinatorics, 148
- Completeness, 154
- Complex numbers, 116, 154
 - addition, 155
 - complex conjugate, 156
 - imaginary part, 155
 - multiplication, 155
 - real part, 155
 - subtraction, 155
- Compressed sensing, 91
- Compressive sampling, 91

- Distribution
 - See* Probability, 43

- Eigenvalue, 115, 116
- Eigenvector, 115, 117
- Entropy, 85
- Equivalence class, 59, **61**
- Equivalence relation, 59, **61**, 163
- Euclidean geometry, 99
- Euler's number, 146
- Expectation
 - See* Probability, 152
- Exponential
 - See* Function, 146
- Exponentiation, 140, **147**

- Function, 140
 - bijjective, 21
 - continuous, 170
 - exponential, 140, **146**
 - logarithm, 141, 146, 147

- Fundamental group
 - See Group, 131
- Gibb's inequality, 164
- Group
 - cyclic, 62
 - definition, 61, 130
 - free product, 133
 - fundamental, 128, 131, 170
 - special orthogonal, 119
- Hamming distance, 7
- Incidence, 98
- Incidence matrix, 97
- Independence
 - See Probability, 151
- Information content, 79, 80
- Information theory, 79
- Integers, 61
- Kullback-Leibler divergence, 53
- Limit, 145
- Linear algebra, 115, 158
- Linear independence, 159
- Linear map, 154, 159
- Logarithm
 - See Function, 146
- Map
 - See Function, 140
- Matrix, 4, 97, 118
 - definition, 153
 - multiplication, 153
 - trace, 119
 - transpose, 154
- Mean
 - See Expectation, 152
- Modulo, 39, 47, 59, 61, 100, 101, 157
- Multinomial coefficient, 48, 149
- Number system
 - binary, 143
 - decimal, 143
- Numbers
 - complex numbers, 140
 - integers, 139
 - natural numbers, 139
 - rational numbers, 140
 - real numbers, 140
- Permutation, 21
- Probability, 141, 150
 - binomial distribution, 45
 - distribution, 43
 - events, 150
 - expectation, 65, 85, 141, 152
 - independence, 87, 151
 - independent and identically distributed (iid), 46, 47
 - multinomial distribution, 48
 - random variable, 152
 - uniform distribution, 47, 164
- Projective geometry, 99
- Projective plane, 99
- Random variable, 152
- Sequence, 144
 - converging, 145
 - series, 145

Series

See Sequence series, 145

Set, 139

complement, 150

difference, 139

element of, 139

intersection, 139

number of elements, 139

power set, 139

Statistics, 47

Topology

fundamental group, 170

homotopy, 130, 170

loop, 170

Total variation distance, 50
