

# CONTENTS

- 1. Geology of the Gettysburg battlefield: How Mesozoic events and processes impacted American history**  
*R.J. Cuffey, J.D. Inners, G.M. Fleegeer, R.C. Smith II, J.C. Neubaum, R.C. Keen, L. Butts, H.L. Delano, V.A. Neubaum, and R.H. Howe*
- 2. A tour of the Peach Bottom Slate—Once the best building slate in the world**  
*J.L. Jones, C.K. Scharnberger, M.A. Schlegel, and D.C. Robinson*
- 3. The great Centralia mine fire: A natural laboratory for the study of coal fires**  
*G.B. Stracher, M.A. Nolter, P. Schroeder, J. McCormack, D.R. Blake, and D.H. Vice*
- 4. Geology of Delaware Water Gap National Recreation Area, New Jersey–Pennsylvania**  
*J.B. Epstein*
- 5. Rodinian collisional and escape tectonics in the Hudson Highlands, New York**  
*A.E. Gates, D.W. Valentino, M.L. Gorring, E.R. Thern, and J. Chiarenzelli*
- 6. Refining the metamorphic and tectonic history of the southeastern Pennsylvania Piedmont: Recent results from monazite and zircon geochronology and accessory-phase thermometry**  
*J.M. Pyle, H. Bosbyshell, and G.C. Blackmer*
- 7. Tectonic history of the Blue Ridge, north-central Virginia**  
*C.M. Bailey, S. Southworth, and R.P. Tollo*
- 8. Central Appalachian Piedmont and Blue Ridge tectonic transect, Potomac River corridor**  
*S. Southworth, A.A. Drake Jr., D.K. Brezinski, R.P. Wintsch, M.J. Kunk, J.N. Aleinikoff, C.W. Naeser, and N.D. Naeser*
- 9. Rivers, glaciers, landscape evolution, and active tectonics of the central Appalachians, Pennsylvania and Maryland**  
*F.J. Pazzaglia, D.D. Braun, M. Pavich, P. Bierman, N. Potter Jr., D. Merritts, R. Walter, and D. Germanoski*
- 10. Along-strike changes in fold-thrust belt architecture: Examples from the Hudson Valley, New York**  
*K.C. Burmeister and S. Marshak*
- 11. 135 million years of history in southwestern Philadelphia, Pennsylvania**  
*R.A. Scheinfeld and C.M. Davenger*
- 12. Bicycle tour of the geology and hydrology of Philadelphia**  
*R.A. Scheinfeld*
- 13. Journey into anthracite**  
*A.R. Frantz, E.L. Simpson, and D.W. Freudenberger*
