

Acknowledgments

This anthology has benefited considerably from the active involvement of Susanne Kappeler over the years that it was being assembled. She played an important role in commenting on the essays, and thus in the shaping of the anthology as it exists. We thank her for her ongoing commitment to this project and for the personal support she offered. We are grateful to Patricia Lamb Feuerstein and Marti Kheel for the use of the Feminists for Animal Rights bibliography, which we built upon in compiling the bibliography of feminist approaches to animal issues. We also wish to express our thanks to Marilyn Emerick, Batya Bauman, Joan Dunayer, and the *Animals' Agenda* for their help in preparing the bibliography. We would like to acknowledge Bruce Buchanan, Greta Gaard, Steve Kellman, Stanley Fish, Jane Tompkins, Rachel Toor, and Katherine Malin for their contributions to the production of this book. The editors would also like to express their appreciation to one another for making the process of collaboration such an enriching and stimulating experience.
