INDEX

A

Abkatun field, 345
Aborted rift systems, of southern South America, 386
Abu Zenima Formation, 462
Acacus Formation
  isopach map for, 445
  structure map on top of, 446
Active margins, in Venezuela, 354–356
Africa, see also Egypt; North Africa
  offshore west, 517–529
  oil types of Atlantic margin, 407
  plate reconstruction of north, 464
  subduction of plate, 462
Ajdabiya trough
  map of, 432, 438
  petroleum systems of, 433–434, 438
  stratigraphy of, 433
  structural cross section of, 438
Al Ghubar salt dome, structure of, 512
Alam el-Bueib (AEB) Formation, 459
Alaska
  discoveries of, 142–144
  exploration of, 141–142
  map of, 138
  northern, 138–161; see also Northern Alaska
  oil production in, 142–144
  petroleum potential of, 144–161
  petroleum systems of northern, 143, 144–145
  resources of, 139
  tectonic setting of northern, 138–139, 140
Algeria, see also Berkine Basin
  exploration in Berkine Basin, 532–555
  giant fields of, 533
  tectonic elements of, 533
Alliance Pipeline, 114–115
Alluvial fans, of Karamay field, China, 331
ALNG (Australian LNG), 293
Amguid-El Biod Arch, 535
Anaco trend south subthrust play, 363
Anadarko group, exploration in Berkine Basin by, 532, 534–538, 540
Ancestral Rockies orogeny, 205
Andean compression, 366
Andean-type subduction basins, of southern South America, 389–398, 401
Andes, plays in Venezuelan, 365, 366, 367
Angola
  exploration history of, 526–527
  geologic history of, 520–526
  stratigraphy of, 521
Antarctica, future exploration of, 18
Anticlines, in Venezuelan play, 366
Antler orogeny, 204
ANWR, see Alaska National Wildlife Refuge
API gravity, versus depth for Lower Congo Basin, 525
Arabian Plate
  basement depth map of, 486
  Cambrian paleogeography of, 489, 492, 493
  Carboniferous paleogeography of, 495–496, 497
  Devonian paleogeography of, 494–495, 496
  exploration history of, 484–485
  Hercynian orogeny in, 499–501
  hydrocarbon availability in, 502–504
  Ordovician paleogeography of, 489, 491, 494
  paleopositions of, 486, 487
  Paleozoic basin evolution of, 489–499
  Paleozoic stratigraphy of, 487–489
  Permian paleogeography of, 497–499
  petroleum systems of, 503
  plays of, 504–512
  reservoirs of, 502–504
  Silurian paleogeography of, 492, 494, 495
  tectonic setting of, 484, 485–487
Arabian shelf, stratigraphy of source rocks of, 425
Archie rock types, porosity/permeability of, 69
Arctic
  future of basins of, 17
  petroleum basins of, 125–127
  provinces of Alaska, 138–161
  Arctic National Wildlife Refuge (ANWR), 140
Argentina, see also South America (southern)
  foreland basins of, 391–394
  petroleum history of, 376
  pipelines in, 377
Asia-Australasia region
  EUR of, 282–284
  petroleum systems of, 282–284
Athabasca, oil sands of, 118–119
Atlantic continental margin, 387, 388, 389, 390
  basins of southern South America, 387–389
  gas hydrates of, 87–90
  of United Kingdom, 186–195
Atlantic Ocean, see South Atlantic Ocean
ATROR, for property values, 83
Auk field
  redevelopment of, 81, 82
  production history of, 82
Aulacogens, of southern South America, 398
Austral 1, 2, 3 divisions, 298
Austral-Magallanes Basin, 396–398
Australasia region
  EUR of, 282–284
  petroleum systems of, 282–284
Australia
  eastern margin of, 301, 312, 313
  exploration history of, 288–291
  petroleum basins of, 289, 290–291
  petroleum resources of, 292
petroleum supersystems of, 290-292, 295, 296-297
promise of Paleozoic, 311-315
reserves of, 290-296
southern margin of, 296-301, 308
Australian Antarctic Territory (AAT), 287, 288
Australian Exclusive Economic Zones (AEEZ), 287, 288

B
Bahloul source rocks, 450
Baltim trend, gas pays of; 478
Barik dome, structural diagram of, 512
Barik Sandstone, 512
Barinas-Apure Stratigraphic Traps play, 367
Barrow arch, 155
Basins, see Petroleum basins; Sedimentary basins
Bayu-Undan field, 294, 306
Beaufort Sea, discoveries of, 125-126
Beaufortian Sequence
  map of, 152
  petroleum potential of, 151-153
  reservoir characteristics of, 153
Beda Formation
  isopach map for, 439
  petroleum geology of, 438-439
Beni Suef Basin
  new-field discoveries in, 468
  structural section of, 471
Benioff-type subduction basins, of southern South America, 398
Berkine Basin
  petroleum distribution in, 532-534, 535
  Anadarko group’s exploration of, 534-538
  architecture of, 532-534
  chronostratigraphy of Paleozoic of, 536
  exploration risk in, 553
  hydrocarbon migration and trap fill in, 551-553
  life-cycle curve for, 555
  location map of, 533
  peak oil-generation timing maps for, 541, 542
  petroleum systems of, 538-553
  quartz sandstone reservoirs of, 543-549
  radioactive shales of, 543, 541, 553
  reliable seismic horizons of, 554
  reservoirs of, 540-549
  seismic lines of, 537, 539, 551, 552
  source rocks of, 538-540
  stratigraphic column for, 534
  structural traps in, 550, 551, 552
  undiscovered resources of, 553-555
Bight Basin
  petroleum potential of, 298
  regional sections of, 309
  seismic lines for, 310
Biogenic gases, from coal, 211, 213
Bitumen, in Canadian oil sands, 118-119
Blake Ridge
  gas hydrates of, 87-90
  seismic profile of, 89
  Body checking, 509, 511
Bohaiwan Basin, map of, 320
Bolivia
  foreland basins of, 391-394
  petroleum history of, 376
Bolsones Basin, 394-395
Boom-and-bust cycles, 35
Bottom-simulating reflectors
  at gas-hydrate zone, 87-89
  from Lord Howe Rise, 313
Brazil, petroleum history of, 376, 378
Brecknock field, 293-294, 304
Bremer Basin, petroleum potential of, 298-299
British Columbia, petroleum systems of, 127
Brookian fold belt, 157-159
Brookian Sequence
  clinoform facies of, 155-157, 158
  map of, 157, 158
  petroleum potential of, 153
  seismic expression of, 156
  topset facies of, 153-154, 156, 157
Brooks Range, thrust belt of, 159
Burgos Basin
  map of plays of, 339
  petroleum geology of, 339
  production profile of, 340

C
Cabinda Gulf Oil, 526
Caciporé Formation, 404
Caernarfon Bay Basin, Irish Sea, 185
Campos Basin, 520
Canada
  East Coast basins of, 121-125
  extra-heavy oil in, 42-43
  future of East Coast, 124-125
  gas hydrates of, 92-96
  heavy oil of, 117
  oil sands of, 113, 115, 117-121
  petroleum production in, 112-113, 128-130
  petroleum resources of, 111-112
  petroleum systems of, 115-127
  projected resources of, 128-131
  sedimentary basins of, 110, 115-127
Cantarell field, 345
  structure map of, 346
Cañón de Veracruz, 348
Capricorn Basin, 311
Carbonates
  of Berkine Basin, 548
  of Lisburne Group, 149
  of Timan-Pechora Basin, 273, 275, 276
Carboniferous, of North Sea gas province, 180-182
Cardigan Bay Basin, 186, 187
Cascadia continental margin
  gas hydrates of, 90-91
  physiographic map of, 91
Caspian Sea, petroleum potential of, 244, 245-251
Cave Gulch gas field, 227-228
Cedar Hills oil field, 225-226
Ceduna Subbasin, seismic lines for, 310
Central Graben (North Sea)
  petroleum geology of, 172-175
  redevelopment of, 81, 82
Downloaded from https://pubs.geoscienceworld.org/books/chapter-pdf/3835312/9781629810621_backmatter.pdf by guest on 07 September 2019
Central Pampas Basin, 380
Central Patagonian basins, 383
Chaco-Formosa Platform, 380
Chaco-Paraná Basin
   petroleum geology of, 379–382
   petroleum systems of, 382
Channel systems, of Lower Congo Basin, 523
Cheshire Basin, 184
Chiapas-Tabasco province, 343, 344
Chile, petroleum history of, 376
China
   history of production in, 319–321
   reservoir potential of, 330–331
   sedimentary basins of, 320
Chloride concentration profiles, Blake Ridge, 90
Chlorite cements
   and permeability, 545
   and porosity, 546
Chronostratigraphy
   of Berkine Basin Paleozoic, 536
   of Miocene of Lower Congo Basin, 522
Chysaaru field, 294, 307
Chukchi shelf, exploration in, 140, 142
Chu-Sarysu Basin, reserves of, 255–256
Cinturón Plegado de Perdido province
   petroleum geology of, 348
   seismic section of, 349
Clinof orm facies, of Brookian Sequence, 155–157, 158
Clusters, of fields, 38
Coal, future as fuel, 31
Coal-bed methane
   of United Kingdom onshore basins, 185
   of Greater Rocky Mountain Region, 210–212, 213, 217–218, 222, 228–230, 234, 235
Cold Lake, oil sands of, 119
Colombia field, 367, 368
Colorado, petroleum potential of, 201–215, see also Greater Rocky Mountain Region
Colorado Basin (South America)
   failed arms of, 388
   map of, 389
Comalcalco province, 344
Congo Basin, see Lower Congo Basin
Congo Canyon, map of, 524
Continental margins
   of Atlantic, 387, 388, 389, 390
   gas hydrates of, 87–91
   of Pacific, 90–91
   of southern Australia, 296–301, 308
   of southern South America, 387–389
   of United Kingdom, 186–195
Continuous-type accumulations, of Greater Rocky Mountain Region, 213–214, 217, 222, 233
Conventional traps, of Greater Rocky Mountain Region, 213, 214
Cordilleras Mexicanas province
   petroleum geology of, 348
   seismic section of, 350
Creaming curves
   for central North Sea, 175
   for Timan-Pechora Basin, 266, 268
Cretaceous, petroleum systems of Greater Rocky Mountain Region, 214–215, 216, 217, 218
Cross sections, of Greater Rocky Mountain Region, 206–207, 216
Crude oil
   of Canada, 111–114, 129
   estimated ultimate recovery of, 28
   future production of, 52
   resource versus production, 47
   of United States, 24
   world consumption of, 22, 23
   world production of, 22, 24
   world reserves of, 24
Cuenc a de Burgos, 339
Cuenc a de Tampico-Misantla, 339–341
Cuenc a de Veracruz, 341–342
Cuyo Basin, 394–395
Cycle steam stimulation (CSS), for oil-sand recovery, 120

D
Daqing field (China), 320
Decollement, in Venezuelan play, 361
Deep-basin accumulation, in Greater Rocky Mountain Region, 219, 221
Deep water
   exploration of Lower Congo Basin, 518, 519
   as primary target, 36
   provinces of Mexican Gulf of Mexico, 345–349
   turbidite plays, 518–520, 522–526, 527
Defa Formation, 438
Delta del Rio Bravo province, cross section of, 348
Delta Platform play, 359
Delta quartz sandstone, of Berkine Basin, 547
Deseado Massif, 383, 386
Diamictites, of southern South America, 381
Diapir Belt play, 360
Diasterane biomarkers, from Foz do Amazonas Basin, 410
Dionysius field, 294, 307
Discoveries, see also Exploration
   of 1990s, 35–43
   of Alaska, 142–144
   giant of world, 36–37
   recent in Greater Rocky Mountain Region, 225–229
   significant of world, 39
   in Timan-Pechora Basin, 269, 270
Discrete-type accumulations, of Greater Rocky Mountain Region, 213, 214
Drilling history, see Exploration; History
Dry holes, 58
Dushanzi field, 330, 331

E
E&P hot spots, 38, 40–41, 42, 59
East Coast basins, of Canada, 121–125
East Texas basin, traps in, 16, 17
Eastern Desert, exploration potential of, 468–469
Eastern margin, of Australia, 301, 312, 313
Eastern Patagonia Basin, 389
Eastern Venezuela Basin, petroleum systems of, 358
Economics
of 1990s, 35–36
of Canada’s production, 128
of gas-hydrate production, 105
of Greater Rocky Mountain Region petroleum potential, 223–225
of reserve additions, 83
Egypt, see also Upper Egypt
 cumulative discovery volume of, 466
drilling history of, 464–465, 466
exploratory tests in, 456–457
giant fields of, 455
map of, 454
paleogeographic reconstructions of, 463, 465
petroleum history of, 453–458
petroleum potential of, 465–474
petroleum systems of, 460
reserves of, 460, 466
riifting in Jurassic of, 459
tectono-stratigraphy of, 458–464, 461
Egyptian General Petroleum Corporation, 470
Eifelian-Givetian quartz sandstones, of Berkine Basin, 545–546, 547
El Soldado field, 360
Ellesmerian Sequence, petroleum systems of, 144, 145–151
Endicott Group
 map of, 146
 petroleum potential of, 145–146
Energy consumption
 of United States, 22, 46
 of world, 22, 51
Energy pyramid, 48, 53
Energy sources, renewable nonpolluting, 31–32
Energy supplies, future of, 29, 30
Espino Graben play, 364
Estimated ultimate recovery (EUR)
of Asia-Australasia region, 282–284
definition of, 260
Etel Formation
 isopach map for, 435
 stratigraphy of, 433, 434
Eurasian petroleum systems, of Indonesia and Papua New Guinea, 283
Exploration, see also E&P; History
 Australia’s history of, 288–291
Berkine Basin’s risk of, 553
Egypt’s history of, 453–458
Greater Rocky Mountain Region potential, 217–220
future of world, 12–15, 17–19, 57–60
history of world, 11–12
Iran’s potential for, 426
Junggar Basin’s potential for, 332–333
of Lower Congo Basin, 518, 519, 526–527
of northern Alaska, 141–142
of South America (southern), 378
Tarim Basin’s potential for, 331–332
of Timan-Pechora Basin, 260–262, 266–278
- United Kingdom’s potential for, 170–195
 Venezuela’s future of, 358–370
Extra-heavy oil
 in Canada, 42–43
 in Venezuela, 42–43

F
Fahdene-Sidi Kralif source rocks, 450
Failed arms of triple junctions, in southern South America, 386–388
Fan complex, of Faroe-Shetland Basin, 189
Faregh oil field, cross section of, 438
Faroe-Shetland Basin, 187–191
fan complex of, 189
plays of, 190, 191
Fars province (Iran)
 reservoirs and seals of, 424
 source rocks of, 423–424
Field-size distribution (FSD)
definition of, 260
for Egypt, 467
for Timan-Pechora Basin, 268, 271
Fluid pressure regimes, of Greater Rocky Mountain Region, 215–217
Foinaven field, 190
Fold belt, of Iran, 418–420
Forearc basins, of southern South America, 398, 401
Foredeep
 idealized scheme of, 356
 of Venezuela, 356, 357
Foreland basins
 of Bolivia and Argentina, 391–394
 of Iran, 418–420
 of southern South America, 392, 389–398, 400
transgression in Egypt, 462
Fossil fuel, future of, 29–31; see also Petroleum potential; Future
Foz do Amazonas Basin
 map of, 404
 petroleum geology of, 404–407
 petroleum systems of, 407, 409–412
 reservoir structure of, 408
 sections of, 406
 stratigraphic chart of, 405
 tectonic setting of, 407–409
Fractured reservoirs, of Greater Rocky Mountain Region, 210, 219, 223
Franja de Sal Aloctona province
 cross section of, 349
 petroleum geology of, 348
Franja Distensiva province
 petroleum geology of, 346
seismic section of, 347
Frontier; see also Future
 of Canada, 113
 of South Atlantic, 403–413
 of United Kingdom, 171, 188
Fuel, fossil, 29–31
Furrial trend, 360
Future
 of Antarctic exploration, 18
 of Arctic basins, 17
 of Beaufortian Sequence, 153
 of Canada’s East Coast, 124–125
 of crude-oil production, 52
 of Greater Rocky Mountain Region, 225–229
 of Egypt, 465–474
of fossil fuels, 29–31
of gas production, 51
hot spots of, 41, 42
of Indonesia, 284–286
of Kazakhstan, 243–257
of Lower Congo Basin, 517–520, 528–529
of northern Alaska, 161
of Papua New Guinea, 284–286
of petroleum supplies, 17–19
of production levels, 41–43
renewable nonpolluting energy sources of, 31–32
of United Kingdom, 194
of United States, 30
of Venezuela, 358–370
of world energy supplies, 17–19, 29
of world exploration, 12–15, 17–19, 57–60

G

“G” field, redevelopment of, 69–75
Gabes-Sabratha Basin, 442
Gamma-ray logs, for Berkine Basin, 543, 546, 548
Gas, see also Methane; Natural gas
of Canada, 112
in coal beds of Greater Rocky Mountain Region, 210–212, 213, 217–218, 222, 228–230
demand for, 43, 106
future production of, 43, 51
in gas hydrates, 101–103
giant discoveries of, 37, 38
of Greater Rocky Mountain Region, 232
of Green River Basin, 226–227
of Indonesia and Papua New Guinea, 284, 285
of Kazakhstan, 244–256
in Mesaverde Group, 221
of Nile Delta, 478
of northern Alaska, 145
of North Sea, 178, 179–182
of southern South America, 376–378
of Wind River Basin, 227–228
Gas condensates, from Karachaganak field, 249
Gas hydrates
of continental margins, 87–91
depth-temperature stability of, 87, 100
natural occurrence of, 96–101
of North Slope of Alaska, 91–92
in permafrost, 92–96, 97, 99
production technology of, 103–105
reservoir models for, 98–99
resource potential of, 96–106
structure of, 86–87, 97
well logs of, 92, 95
worldwide locations of, 87, 88, 97, 103
Gas-potential reserves, undiscovered, 40
Gas-to-liquids (GTL), 49
Gebel Duwi Formation, 476
Generation potential
of Junggar Basin, 326
of Tarim Basin, 324
Geochemistry, of onshore China source rocks, 327–330
Georges Banks Basin, petroleum systems of, 127
Ghaba salt basin, geologic cross section of, 501
Ghadamis Basin
exploration in, 532–555
isopach map for, 445
location map of, 441
petroleum geology of, 440–441
stratigraphic chart of, 444
structure of, 442, 443, 446
tectonic setting of, 431
Gharif Formation
play of, 507–508
structure of, 512
Ghawar area
Paleozoic section of, 504
structural cross section of, 507
Giant discoveries, of 1990s, 36–37
Giant fields
of Algeria, 533
of Egypt, 455
of Libya, 430
of Venezuela, 370
Girassol field, 526, 527
Glaciation, Ordovician of Gondwana, 491–492
Golden Lane, plays of, 340
Gondwana
on Arabian Plate, 485
megasequences of, 381–382
Ordovician glaciation of, 491–492
in southern South America, 381–382, 387
Gorgon field, 292, 300
Grabens
of Egypt, 459
of North Sea, 172–176
of Venezuela, 364
Grand Banks, petroleum systems of, 123
Grand Erg Oriental, exploration in, 532–555
Gravity flow sand play, in Oman, 509, 510, 511
Great Australian Bight, 298, 309
Greater Rocky Mountain Region (GRMR)
coal-bed methane reservoirs of, 210–212, 213, 217–218, 222, 228–230
cross sections of, 206–207
geologic history of, 204–209
gas geologic map of, 203
gas geologic provinces of, 231–232
new technology in, 220–223
petroleum basins of, 212
petroleum systems of, 209–218
recent discoveries in, 225–229
reserves of, 232
resource estimates of, 202–204, 233–234
stratigraphic chart for, 211
structure of, 205–209
traps of, 212–214
Green River Basin
pressures in, 216, 220
recent discoveries in, 226–227
Groundwater-dominated fluid systems, of Greater Rocky Mountain Region, 215, 218
Growth faults, of Foz do Amazonas Basin, 408
GTL, see Gas-to-liquids
Guaporé shield, 393
Guarico Basin, 362, 364
Gulf of Mexico Basin (United States), see also Mexican portion of Gulf of Mexico (MGOM)
secondary recovery in, 69–75
stratigraphic section of, 72
structure map of, 74
value of fields in, 83
well logs from, 73
Gulf of Suez
exploration potential of, 468–469, 473
field-size distribution for, 467
petroleum system of, 468
riifting of, 462–463
sequence stratigraphy of, 474
step-out exploration of, 475
structural map of, 473
synrift petroleum systems of, 474
tectonic setting of, 462–463, 464

H
Haima deep gas play, 510–511, 512
Half graben, in Venezuelan play, 364
Halokinesis, in trapping, 175
Hammerhead supersequence, 310
Hanna trough, exploration in, 139, 140, 145
Hasirah gravity-flow sand play, 509, 510, 511
Hassi Messaoud Ridge, 535
Hatton Basin, 193–195
Hawtah oil field, perspective diagram of, 508
Heavy oil, of Canada, 117
Hercynian orogeny
tectonic history of, 495, 496, 499–501
unconformity of, 547
Hibernia field, of Canada, 114
History
of 1990s, 35–43
of Australia exploration, 288–291
of China’s production, 319–321
of Egypt’s petroleum exploration, 453–458, 464–465, 466
of Iranian petroleum exploration, 417–418
of Kazakhstan’s production, 244–245
of Lower Congo Basin exploration, 526–527
of Libyan petroleum exploration, 429–430
of oil shortages, 46
of petroleum industry, 12
of southern South America’s petroleum industry, 373–378, 398–401
of Timan-Pechora Basin exploration, 260–262
of United Kingdom production, 168–170
of Venezuela’s petroleum industry, 353–354
Hopanes
from Foz do Amazonas Basin, 410, 411
from Niger Delta Basin, 410, 411
Hormuz salt plug, satellite image of, 423
Hot” shale
as hydrocarbon source, 502, 503
tectonic history of, 488, 492
Hot spots, E&P, 38, 40–41, 42, 59
Hubbert’s model, of production versus consumption, 50
Hydrocarbon charge, in onshore China basins, 321
Hydrocarbon energy pyramid, 48
Hydrocarbon potential, see Petroleum potential
Hydrocarbon-dominated fluid systems, of Greater Rocky Mountain Region, 215–217, 219–221
Hydrocarbons, see Gas; Crude oil; Oil; Petroleum
Hydrodynamics, of Greater Rocky Mountain Region, 215–217

I
Iabe Formation, 520, 525
Ice, gas hydrates in, 92–96, 97, 99
Illizi Basin
peak oil-generation timing maps for, 541, 542
petroleum distribution in, 535
petroleum systems of, 538–553
radioactive shales of, 538, 541
reservoirs of, 540–549
Imbricated thrusts, in Venezuelan play, 365
Incipient rift systems, of southern South America, 386
Indonesia
petroleum potential of, 284–286
petroleum systems of, 281–284
Infrastructure, see Pipelines
Intraarc basins, of southern South America, 398, 401

  petroleum resources of, 246
  undiscovered reserves of, 245–256
Kekiktuk Conglomerate, 145–146
Kenkiyak oil field, 251
Khoreyver depression, 263–265, 273, 275
Khuff Formation reservoirs
  development of, 505
  gas fields of, 485, 506
  plays of, 504–507
  seismic impedance contrast in, 506
  structural cross section of, 507
  tectonic history of, 498
Khuzestan province (Iran)
  foreland fold-belt stratigraphy of, 420–423
  reservoirs and seals of, 424
  source rocks of, 423
Kimmeridge Clay, 170
Kingak Shale, depositional style of, 152
Kolva swell, 263–265, 274, 276, 277
Komi Republic, petroleum potential of, 266–277
Komombo Basin
  exploration in, 468
  seismic line and stratigraphy of, 472
Kuito field, 523, 526
Ku-Maloob-Zaap complex, 345
Kumkol oil and gas field, 254
Kuwait, see Arabian Plate
Kwanza Basin, 520

L

La Batalla del Petroleo, 376
La Luna Formation, 357, 358, 365
Laboulaye Basin, 380
Labrador, offshore basins of, 124
Lacustrine deposits, of China’s basins, 323, 330
Laisky swell, 276
Lake Maracaibo
  redevelopment of fields in, 75–81
  sealing faults of, 77, 78
  structure map of, 76
Landsat image, of Egypt, 454
Laramide orogeny, 205, 216
Laurestan province (Iran), source rocks of, 423
LCU, see Lower Cretaceous unconformity
Leman Sandstone, 179
Libya
  offshore stratigraphy of, 447
  petroleum history of, 429–430
  petroleum potential of, 467
  petroleum systems of, 431–448
  source rocks of, 441, 442, 444
  tectonic setting of, 430–431
  western, 440–448
Light oil, from Western Canada Sedimentary Basin, 115–116
Limoeiro Formation, 406
Liquid natural gas (LNG), future production of, 43
Liquid petroleum, see Oil
Lisburne Group, 146–149

Litoral de Tabasco province, 345, 346
Llandovery radioactive shales, of Berkine Basin, 538, 541, 553
LNG, see Liquid natural gas
Lochkovian-Emsian quartz sandstones, of Berkine Basin, 543–545
Loene Salt Formation, development of, 520
Lord Howe Rise
  bottom-simulating reflectors from, 313
  map of, 312, 313, 314
  petroleum potential of, 301, 308–309
  structural elements of, 314
Los Monos Formation, 391
Louisiana, secondary recovery in, 69–75
Lower Congo Basin
  API gravity versus depth, 525
  deep-water exploration of, 518, 519
  deep-water turbidite producing trends of, 527, 528
  exploration history of, 526–527
  future potential of, 517–520, 528–529
  geologic history of, 520–526
  map of, 519, 524
  Miocene chronostratigraphy of, 522
  petroleum systems of, 522–526
  source rocks of, 520, 523, 525, 526
  stratigraphy of, 521
Lower Cretaceous unconformity (LCU), 140, 143, 146
Luaogou Formation, thermal maturation history of, 332

M

Macachin Basin, 380
Mackenzie Delta
  gas hydrates of, 92–96
  petroleum systems of, 125–126
  well log of, 95
Macuspana province, 344–345
Magallanes Basin, 387
Magoon and Dow methodology, 259–260
Malembo Formation, as source rock, 523, 525, 526
Malvinas Basin, 387
Mangyshlak province, reserves of, 252–253
Maracaibo Basin, petroleum systems of, 358
Maradah graben
  map of, 432
  petroleum systems of, 435–436
  stratigraphy of, 433
Maryborough Basin, 311
Mass chromatograms, of oils from Niger Delta Basin, 409–411
Mature fields
  redevelopment of, 64–83
  reserve additions from, 82–83
  of Texas, 64
Meade Basin, development of, 147
Mediterranean region
  cross section of, 477
  drilling history of, 465
  exploration potential of, 471–474
  field-size distribution for, 467
  Messinian crisis in, 463–464
  plate reconstruction of, 464
Megasequences, of southern South America, 381–382
Merida Andes, plays in, 365, 366, 367
Mesaverde Group, pressures in, 215, 220, 221
Messinian Crisis, 463–464
Methane, see Natural gas
methane in coal beds of Greater Rocky Mountain Region, 210–213, 217–218, 222, 228–230, 234, 235
hydrates of, 49
Methodology of Magoon and Dow, 259–260
Mediterranean Sea, structure map of top of of, 448
Mexican Cordillera, 348, 350
Mexican portion of Gulf of Mexico Basin (MGOM)
depth-water provinces of, 345–349
maps of, 338
petroleum potential of, 337–349
petroleum provinces of, 338–349
seismic sections of, 347–350
Mexico, offshore petroleum provinces of, 337–351
Mid-Atlantic Ridge, rifting on, 520
Middle Caspian Basin, reserves of, 245-251
Midlands microcraton, 184
Migration pathways, of Timan-Pechora Basin, 265–266
Mole D’Ahara, 534, 535
Montana, see Greater Rocky Mountain Region
recent discoveries in, 230
petroleum potential of, 201–235
Moratoriums, Canadian areas under, 127–129
Moray Firth, 172–176
Mud diapir, in Diapir Belt play, 360
Murzuq Basin
isopach map for, 445
location map of, 441
petroleum geology of, 441–442
stratigraphic chart of, 444
structure of, 442, 443, 446
tectonic setting of, 431

N
National Petroleum Reserve of Alaska (NPRA), 141–142
Natural gas, see Gas
of Canada, 112, 114, 115–116
hydrates of, see Gas hydrates
future as fuel, 31
future production of, 43, 51
Natural-gas liquids, of Greater Rocky Mountain Region, 232
Nenets Okrug (Russia), petroleum potential of, 266–277
 Neuquen Basin, 395, 397
Newfoundland, basins offshore, 123
Niger Delta Basin
oil types from, 409, 411
relationship to Foz do Amazonas Basin, 403
reservoir structure of, 408
Nile Delta
cross section of, 477
exploration potential of, 471–474
field-size distribution for, 467
gas pays of, 478
Messinian crisis in, 463–464
progradation of, 464
seismic profiles of, 477, 478, 479
tectonic setting of, 462, 464
Niobara Formation, 210
Nonpolluting energy sources, 31–32
North Africa, plate reconstruction of, 464; see also Africa; Egypt
North Andean Mountain Front play, 365
North Caspian Basin
reserves of, 245–251
stratigraphy of, 247
structure of, 247
North Dakota, recent discoveries in, 226
North Sea
gas province of, 178, 179–182
gas reservoir potential of, 181
lithofacies of, 172
oil province of, 170–179
redevelopment in Central Graben, 81, 82
reservoirs of, 170–179
source rocks of, 173
underexplored plays of, 174
North Slope of Alaska, gas hydrates of, 91–92
North Ustyurt Basin, reserves of, 254–255
North West Shelf
tectonic elements of, 299
undeveloped reserves of, 292–294
 undiscovered reserves of, 294–296
Northern Alaska
geologic setting of, 138–139, 140
petroleum potential of, 144–161, 160–161
petroleum province of, 138–161
petroleum systems of, 143, 144–145
stratigraphy of, 139–141
thrust belt of, 157–160
Northern Offshore Venezuelan Basin play, 369
Northwest Territories, hydrocarbon potential of, 121
Nova Scotia, basins offshore, 121–123
NPRA, see National Petroleum Reserve of Alaska
Nubian Formation
isopach map of, 436
stratigraphy of, 433, 435–436
structure map on top of, 437
Nuclear energy, 53–54
Nukhul Formation, 462

O
Ocean Drilling Program, search for gas hydrates by, 87–91
Oceanic gas hydrates, 87–91, 103
Offshore exploration, world’s future of, 14–15
Oficina trend, 360, 363
Oil, see Crude oil
future as fuel, 29–30
giant discoveries of, 36–38
of northern Alaska, 144–145
province of North Sea, 170–179
ultimate production of United States, 25–26
unconventional resources of, 48–49
undiscovered potential reserves of, 39–40
world consumption of, 22, 23
Oil exploration, see Petroleum exploration
Oil sands
of Canada, 113, 115, 117–121
production of, 115, 119
Oil seeps
  in Foz do Amazonas Basin, 412–413
  remote-sensing detection of, 412–413
Oil shale, of world, 49

Is the world running out of hydrocarbons?

Where will we find oil and gas to fuel the twenty-first century?

Are unconventional sources of hydrocarbons waiting to be tapped?

Petroleum Provinces of the Twenty-first Century addresses these important issues concerning energy needs in this century. The volume, AAPG Memoir 74, is a compilation of expert papers presented at the second Wallace E. Pratt Memorial Conference, Petroleum Provinces of the Twenty-first Century, held at San Diego, California, on January 12–15, 2000. The chapters describe the remaining hydrocarbon potential of most of the major petroleum basins that likely will provide the world's energy in the near future.

Topics include:

◆ significance of hydrocarbon discoveries in the 1990s
◆ the question of whether the world is running out of hydrocarbons
◆ nontraditional hydrocarbon sources such as old fields and natural-gas hydrates
◆ hydrocarbon potential of North and West Africa; the Middle East; North, Central and South America; Eurasia; and the southeast Pacific

Petroleum Provinces of the Twenty-first Century deals with all aspects of petroleum systems—source, reservoir, seal, and migration. The book will interest explorers and managers who want a global perspective on exploration opportunities and a concise introduction to the petroleum geology of a particular area.
