Accretion, in Andes, 102
Adrian Jara Formation, stratigraphy of, 195
Africa (southern), see also Pan-Africa
  basin evolution in, 5-44
  data point analysis of, 84
  Middle Devonian of, 257
Agua da Villanueva, seismic reflection profile of, 395
Aguarague field, cross section of, 552
Aguarague range
  seismic reflection profile of, 534, 537
  structure of, 551-552
  supersequence of, 255
Algae, in organic matter, 414
Alluvial fans, of Sierra Pampeanas, 341-356
Altiplano
  basin architecture of, 312-313, 320
  basin evolution of, 305-322
  Bouguer gravity of, 310, 313, 314
  Carboniferous stratigraphy of, 233-237
  correlation chart of, 321
  geologic map of, 310-312
  geologic setting of, 306-307, 512-514
  geophysical data of, 308-309, 310-311, 313-314, 322
  hydrocarbons of, 307-308, 314-315
  location map of, 512
  seismic reflection profiles of, 316-319
  stratigraphic columns of, 309, 311
  stratigraphy of, 308, 312
  structural inversion in, 321
  structure of, 306, 315
  and sub-Andean belt, 474
  tectonostratigraphic chart of, 311
Alto Paraguay terrane, 39
Amazon basin, data point analysis of, 83
Ambo Group, 216, 235
Andean bend
  analogs of, 520
  décollement levels in, 513
  footwall morphology in, 515-516
  models of formation of, 518
  orocline interpretation of, 518-521
  paleogeography of, 518-519
  sedimentary thicknesses in, 517
  structure of, 513-515
Andean deformation, see also Andes in Boomerang Hills, 487-489
  climax of, 74
  early, 73-74
  Ordovician, 212
  seismic reflection profile of, 28
Andes, see also Eastern Cordillera
  Aptian-Albian paleogeography of, 112-113
  and asthenosphere, 476-477
  backthrusting in, 475
  basement of, 271, 273-274
  basin-bounding features of, 243-244
  bend in, see Andean bend
  blind thrusting in, 650-651
  Cambrian-Devonian evolution of, 214
  Carboniferous of, 233-237, 241
  Cenozoic of, 118-119, 120-121, 122-123, 225, 277-279
  of Colombia, 642-643
  compared to Canadian Cordillera, 653-654, 656
  Cretaceous rift system of, 325-337
  Cretaceous paleogeography of, 110-111, 114-117
  cross sections of, 461, 465, 466, 467, 475, 477, 643
  crustal structure of, 639-642
  data point analysis of, 82
  Devonian of, 233-235, 240-241
  evolution of, 103-127
  geodynamics of, 244-245, 641-642
  geologic setting of, 460-462, 512-514
  hydrocarbon systems of, 104, 124-127
  igneous events of, 242, 243-244, 271, 273-274
  intermontane basins of, 597-611
  Jurassic paleogeography of, 108-109
  lithosphere of, 461, 477, 642-643
  location map of, 232, 648
  new model for structure of, 652-653
  paleobiogeography of, 238-240
  paleolatitudinal shift in, 231-246
  palinspastic reconstruction of, 102-103
  Permian of, 233, 237-238, 241-243
  and pre-Andean extension, 490
  sandstone reservoirs of, 125-126
  source rocks of, 124-125
  strain of Tithonian rift of, 641-642
  structure of, 208-209, 514-518, 531
  subduction in, 643
  tectonic evolution of, 269-281, 474-477, 654
  Tertiary compression in, 40
  Triassic-Jurassic paleogeography of, 106-107
  Antarctic, data point analysis of, 84
Apon Formation

Maturation, mechanisms of, 126-127
Maturín basin
cross section of, 672, 673, 747
exploration efficiency for, 58
field size distribution in, 59
hydrodynamic system of, 751
tectonostratigraphy of, 671-672
Megasequences
definition of, 211
of Eastern Venezuelan basin, 743-745
of Maracaibo basin, 703-704, 707, 711-713
Mendoza area, structural inversion in, 369-380
Merida arch
cross section of, 709
Jurassic rifts of, 705
Mesa Formation, 730
Mesoproterozoic, crustal evolution in, 8-10
Mesosaurus, 31
Miraflores syncline, stratigraphic column of, 221
Misoa Formation
dinoforms of, 715, 716
isopach map of, 711, 713
progradation in, 717
seismic reflection profile of, 715, 716
stratigraphic column of, 693
stratigraphy of, 712-713
Morichito basin
cross section of, 672, 673
seismic reflection profile of, 671
Mulichínco Formation, paleogeography of, 397
Multinational oil companies (MNCs), definition of, 56
Nama Group
- basin fill of, 16
- deposition of, 15-16
- outcrops of, 16
- seismic reflection profiles of, 12, 14

Namora basin, stratigraphic column of, 602

Napo, reservoir petrography of, 586-589

Napo Formation
- correlation chart of, 583
- Cretaceous paleogeography of, 585
- depositional systems of, 580-582
- idealized depositional package of, 582
- logs of, 581
- petrophysical properties of, 589-590
- stratigraphy of, 580-582
- T and U sandstone reservoirs of, 581-582
- transgressive-regressive cycle of, 583

Napo uplift, cross section of, 580

National oil companies (NOCs), definition of, 56

Nazca plate, 277

Neo-proterozoic
- basins of, 7
- extension in, 12
- outcrop belts of, 10
- of Pan-Africa, 17
- tectonic reconstruction of, 18

Netherlands Antilles, 758-759

Neuquén basin
- early rifting in, 386
- evolution of, 71-73
- geologic map of, 370
- geologic setting of, 386
- HuincaL arch in, 38
- isopach map of, 390
- Jurassic rift of, 373-375
- location map of, 384
- oil fields of, 386
- paleogeography of, 387, 391
- seismic reflection profiles of, 388, 389, 393, 395, 396
- stratigraphic column of, 372
- stratigraphy of, 385, 388-391
- structural inversion in, 369-380, 391-393
- structural style of, 386-388
- subsidence in, 391-394
- Tertiary folding of, 375-380

Neuquén Group
- cross section of, 398
- isopach map of, 399
- paleogeography of, 397
- Tertiary orogenesis of, 397-398

Normal fault, horizontal offset from, 653

North Patagonia massif, definition of, 64
- “Northwestern basin,” 252

Oca fault, well correlation across, 768

Occidental
- Cretaceous stratigraphy of, 352-353
- geologic map of, 352
- Neogene inversion of, 353-356
- Neogene structure of, 351-352
- stratigraphic column of, 354

Ocloyic foldbelt
- regional framework of, 273
tectonic evolution of, 275

Oil fields
- of Argentina, 265
- of Boomerang Hills, 483
- of Cuyo basin, 362-363, 365-366
- of Eastern Venezuelan basin, 742
- largest in Latin America, 57
- of Marañon basin, 443
- of Neuquén basin, 386
- of Peru, 424
- of San Bernardo belt, 405
sizes of, 59-60
- of Ucayali basin, 443

Oil and gas, see Hydrocarbons

Open rift, definition of, 80, 81

Organic matter, geochemical profile of, 414

Oriente basin
- Cretaceous paleogeography of, 582-585
cross section of, 655
depositional systems of, 575-582
evolution of, 655, 636
geologic setting of, 561, 574-575
igneous events of, 243
location map of, 574
logs of, 581
reservoirs of, 585-590
seismic reflection profiles of, 563, 564, 565, 566, 567, 568, 569, 636, 637
stratigraphic columns of, 562, 575, 576
stratigraphy of, 561-565, 575-582
structure of, 565-569
tectonic map of, 560

Orinoco oil belt, cross section of, 672-673, 729

Oritupano area, porosity vs. depth in,
- 733

Orocline
- Andean bend as, 518-521
definition of, 512

Orogenesis
- Andean, 696; see also Andes
- Araucanian, 71-73
- Peruvian-Triassic, 34-35
- Tertiary, 40
- Vendian, 15-19

Pagano basin, 276
- basement of, 287
correlation chart for, 298
cross section of, 294

Paleogene
- evolution of, 31, 288, 293-296
- hydrocarbon potential of, 296
- paleogeography of, 296-298
- seismic reflection profile of, 289
- stratigraphic column of, 287
- stratigraphy of, 288-293
- subsidence curves of, 33
- supersequences of, 288-296
tectonic model for, 294, 295

Panguano-Maliman basin
- glacial deposits of, 168-170
- stratigraphic framework of, 169

Paloalto rift, cross section of, 378

Paleobiogeography
- of Carboniferous Andes, 239-240
- of Devonian Andes, 238-239
- of Permian Andes, 240

Paleogeography
- Albian, 112-113
- of Andean bend, 518-519
- of Andes, 240-243
- Aptian, 112-113
- of Argentina, 383-400
- of Bolivia, 210-211, 218, 220, 240-243
- Cambrian, 20, 42, 67
- Campanian, 116-117
- Carboniferous, 42, 67, 90-93, 169, 241, 297
- Cenomanian, 114-115
- Cenozoic, 224
- of coastal Ecuador, 618, 625
- construction of maps of, 103
- Cretaceous, 37, 43, 71, 72, 73, 223, 224, 263, 344-348, 397, 399, 584, 585, 688-692
- of Cuenca basin, 606

crustal load deflection in, 463
crustal shortening in, 539-540
deformation of, 535-539
evolution of, 74, 397-398
exploration modeling of, 450-451
foredeep fill of, 462
gas-oil ratio in, 456
geochemical evaluation of, 437, 526-531
gleologic maps of, 464, 469, 525
gleologic setting of, 252-253, 446-448, 512, 524, 546-547
gleothermal gradient of, 437
hydrocarbons of, 424, 433-440, 451-457, 526-531, 547-549
imbriication in, 464-466
location maps of, 512, 532, 546
main thrust tecnotics of, 469-473
oil and gas windows of, 451
oil-escape correlation, 438
petroleum geology of, 423-444, 433-440, 452-455
reservoirs of, 433-436, 547-548
sedimentary wedge of, 449
seismic reflection profiles of, 434-435, 549
source rocks of, 436, 448-450, 526-530, 547
stratigraphic columns of, 448, 462, 526, 548
stratigraphy of, 216, 426-430, 462-463, 524-526
structural trap styles of, 439-440
structure of, 447, 460-462, 463-464, 531-541, 549-554
synclines of, 467-468
tectonic framework of, 430-433
triangle zone of, 466-467
Triassic basin of, 429
Subduction in Andes, 643
in Eastern Venezuelan ranges, 675-676
Subsidence curves analysis of, 80-81
for Carboniferous-Permian, 33
for La Valenciana half-graben, 373
of Maracaibo basin, 709, 710, 715, 719
for NW Argentina, 262
for Pampango basin, 33, 295
for Venezuela, 776
Successor basins definition of, 19
of Paleozoic, 19-34
Superpatagoniano succession, 406
Supersequences of Argentina, 253-261
of Bolivia, 209
definition of, 211
of Paganzo basin, 288-296
of western Venezuela, 683, 685-692
Tacurú supersequence, stratigraphy of, 259-260
Tarija basin, stratigraphy of, 259
Tarija Formation
outcrops of, 179
stratigraphy of, 258
Tarija-Teoponte belt, stratigraphy of, 216-218
Tecka Range, stratigraphic column of, 171
Tectonic subsidence, see also Subsidence curves
curves of, 80-81, 262, 295, 373
of Cuyo basin, 363
of Gondwana, 79-96
of Maracaibo basin, 715, 719
Tectonic wedge
creating trap by, 552
delamination by, 551
high-density in Venezuelan Coast Ranges, 676-677
TEMISPACK software, 728, 736, 737
Temperature-burial modeling, for San Bernardo belt, 415
Tepuel basin
glacial deposits of, 170-171
stratigraphic framework of, 169
Tepuel Group, stratigraphic column of, 171
Tequeje Formation, stratigraphy of, 502-503
THEMIS software, 751
Tien Shan mountains, gravity-driven structures in, 649
Tinajani basin, stratigraphic column of, 603
Tobifera, 405
Toe addition, definition of, 465
Tokochi Formation, stratigraphy of, 213
Tomachi Formation, stratigraphy of, 503
Tordillo Formation, paleogeography of, 392
Toregua Formation
as source rock, 450
stratigraphy of, 503
Transpression, Permian-Triassic, 36
Traps, see Hydrocarbons
Triangle zone
cross section of, 649
definition of, 648, 650
of sub-Andean belt, 466-467
Trujillo Formation
dinoforms of, 715
progradation in, 717
seismic reflection profile of, 715
stratigraphy of, 712
Tuichi syncline, cross section of, 473
Tupambi Formation, stratigraphy of, 258
Tupe supersequence, stratigraphy of, 290-291, 292, 293
Turbidites
depositional model of, 176
of Tarija Formation, 179
of Tupe supersequence, 293
Two-dimensional computer modeling, 727-740
Ucayali basin
correlation chart of, 427
exploration wells of, 442
hydrocarbons of, 424, 433-440
oil fields of, 443
setting of, 426
Uncía Formation, stratigraphy of, 213
Undiscovered resources, prediction of, 60
Upper Hollin Formation, see also Hollin Formation
depositional systems of, 577-579
Mohr-Coulomb failure criteria of, 596
petrophysical properties of, 591, 592
porosity-permeability of, 590
Upper Patquia–De la Cuesta supersequence, 292, 293
Urubante rift, Jurassic of, 706
Urca fault, seismic reflection profile of, 748
Uruguay
correlation chart of, 136-137
geologic cross sections of, 153-158
geologic maps of, 130-155
Urumaco trough
interpreted seismic line of, 763
subsidence rates of, 776-777
Vaca Muerta range, outcrops of, 394
Venezuela, see also Western Venezuela
Caribbean pull-apart basin of, 757-778
Cenozoic tectonics of, 757-778
cross section of, 754
crust of, 667-677
exploration efficiency for, 58
geologic history of northwestern, 771-774
isopach maps of, 772, 773, 775
location maps of, 648, 669
seismicity of, 669
stratigraphy of, 681-697, 759-774
tectonics of, 754, 758-759, 669
wildcat drilling in, 54-55
Western Cordillera
geologic setting of, 512-514
subduction on, 643
Western Venezuela
correlation chart of, 684, 703
geologic setting of, 682
logs of, 694, 696
paleogeography of, 683, 688-692, 694-696
seismic reflection profiles of, 685, 688, 692
stratigraphic column of, 684, 691, 694, 696
stratigraphy of, 682-696
tectonic evolution of, 683, 700-723
tectonic setting of, 700-702
Wildcat drilling
in Latin America, 54-55
net oil found by, 57
Yaurichambi Formation, stratigraphy of, 503
