RETRACTION

Effects of Ceftriaxone on Systemic and Central Expression of Anti- and Pro-inflammatory Cytokines in Alcohol-Preferring (P) Rats Exposed to Ethanol

P.S.S. Rao, S. Ahmed and Y. Sari*

The Editors-in-Chief and Publishers have withdrawn this article after the authors re-visited the paper and found an unintentional error in the data that was originally submitted. The reviewers re-evaluated the work and it was decided that a retraction of the paper was the most appropriate course of action. The authors concur with the retraction of the paper for the interests of scientific research integrity.
