Erratum

As a result of a printing error, Figures 1, 2, 3, and 4 on page 10 of the article by Dr. Ralph Giorno, which was published in the July 1982 issue of the Journal, were too dark and the various structures identified in the legends could not be seen.

The figures as they should have appeared are on page 421 of this issue, and the legends for the figures are below.

FIG. 1 (upper, left). Hyperplastic lymph node stained with anti-IgD antisera. Held in transport medium. Note mantle zone pattern (×225).

FIG. 2 (upper, right). Hyperplastic lymph node stained with anti-IgD antisera. Immediately snap frozen (×340).

FIG. 3 (lower, left). Hyperplastic thymus stained with monoclonal antibody T101. Held in transport medium (×225).

FIG. 4 (lower, right). Hyperplastic thymus stained with monoclonal antibody T101. Immediately snap frozen (×225).
