Contents

1  Obituary
3  A. TOMASGARD, A. LISser, P. BERALDI and V. MORIGGIA
   Editorial: Special issue: stochastic programming
5  G. PANTUSO, K. FAGERHULT and S. W. WALLACE
   Which uncertainty is important in multistage stochastic programmes?
   A case from maritime transportation
19  L. COROLI, G. LULLI, L. NTAIMO and S. VENKATAChALAM
   A two-stage stochastic integer programming model for air traffic flow
   management
41  P. BERALDI, M. E. BRUNI, D. MANERBA and R. MANSINI
   A stochastic programming approach for the traveling purchaser problem
65  G. PErBOLI, L. GObBATO and F. MAGGIONI
   A progressive hedging method for the multi-path travelling salesman problem
   with stochastic travel times
87  M. MINOUX
   A class of efficiently solvable multistage optimization problems under
   uncertainty and applications
109  G. MURGIA and S. SBRILLI
   Integrating multi-stage stochastic programming and machine learning for the
   evaluation of policies in the electricity portfolio problem
131  P. PIScIELLA and A. A. GAVOrONSKl
   Stochastic programming bilevel models for service provision with a balancing
   coordinator

IMA Journal of Management Mathematics

Editors
R. S. Mamon, P. Scarf and A. A. Syntetos

Volume 28 Number 1 January 2017

Special Issue: Stochastic Programming
Special Issue Editors: Asgeir Tomasgard, Abdel Lisser,
Patrizia Beraldi and Vittorio Morrigia

ISSN 1471-678x (PRINT)   ISSN 1471-6798 (ONLINE)
