403 A. Tabarrok
Discussion: The FDA is Unprepared for Personalized Medicine

404 A. W. Lo
Discussion: New directions for the FDA in the 21st century

408 G. Molenberghs
Discussion: Is the FDA in need of a major change in the way it regulates?

410 J. Wittes
Discussion: Is the FDA in need of a major change in the way it regulates?

414 S. S. Ellenberg
Discussion: Is the FDA in need of a major change in the way it regulates?

417 T. R. Fleming, D. L. Demets, L. M. McShane
Discussion: The role, position, and function of the FDA—The past, present, and future

422 A. Kaul, O. Davidov, S. D. Peddada
Structural zeros in high-dimensional data with applications to microbiome studies

434 T. Lyu, E. F. Lock, L. E. Eberly
Discriminating sample groups with multi-way data

451 A. T. L. Iwan, J. C. Martoni
Overcoming confounding plate effects in differential expression analyses of single-cell RNA-seq data

465 R. A. Matsouaka, E. J. Tchetgen Tchetgen
Instrumental variable estimation of causal odds ratios using structural nested mean models

477 J. Pecanka, M. A. Jonker, International Parkinson's Disease Genomics Consortium (IPDGC), Z. Bochdanovits, A. W. Van Der Vaart
A powerful and efficient two-stage method for detecting gene-to-gene interactions in GWAS

495 J. Ning, Y. Chen, J. Piao
Maximum likelihood estimation and EM algorithm of Copas-like selection model for publication bias correction

Performance of two formal tests based on martingales residuals to check the proportional hazard assumption and the functional form of the prognostic factors in flexible parametric excess hazard models

521 A. F. Mejia, M. B. Nebel, A. Eloyan, B. Caffo, M. A. Lindquist
PCA leverage: outlier detection for high-dimensional functional magnetic resonance imaging data

537 A. Wilson, Y.-H. M. Chiu, H.-H. L. Hsu, R. O. Wright, R. J. Wright, R. A. Coull
Bayesian distributed lag interaction models to identify perinatal windows of vulnerability in children’s health

553 J. Antonelli, C. Zigler, F. Dominici
Guided Bayesian imputation to adjust for confounding when combining heterogeneous data sources in comparative effectiveness research

569 P. Filipoupp, G. Marra, R. Radice
Penalized likelihood estimation of a trivariate additive probit model

586 V. Nygaard, E. A. Rodland, E. Hovig
