Abstract

Introduction

Tectonic Setting

Slip Rate over Time

Course of Fault

- San Gregorio Segment
- Monterey Bay Segment
- Big Sur Segment
- San Simeon Segment
- Hosgri Segment

Offset Nacimiento Fault

- Cross-Fault Contrasts
- Nature of Faulting
- Regional Relations

Nacimiento Piercing Points

- Big Creek Enclave
- Shell Well Core
- Alternate Piercing Points
- Pigeon Point–Atascadero
Correlation
- Supportive Tertiary Exposures

Tectonic Reconstructions

- Northern Salinian Block
- Point Sur Franciscan Block
- San Simeon and Point Sal

Regional Problems

- Gualala Block Problem
- Gualala Block Position
- Gualala Stratal Relations
- Gualala Fault Sliver
- Alternate Gualala Restoration
- Pilarcitos Fault Relations
- Gualala Block Slip
- Proto–San Andreas Question

Intra-Salinian Deformation

- Tularcitos Saddle
- Santa Lucia Transpression
- Distributive Strike Slip

General Conclusions
