seismic refraction 74
self-potential (SP) 72

demis-urban crime scenes 97–98
sequencing of geological sampling 93–94
Sherlock Holmes (Conan Doyle) 7–9, 14
side scan sonar 186
Singapore, forensic geology in 17
small-scale mining 172–173, 173
smuggling 173–174
sniffer dogs see detector dog surveys
soil diggability 42–43, 44, 45–47

soil examination
archaeological artefacts 122
body disposal site 118
clothing and footwear 112–119, 114, 119, 120
general principles 129
general geological evidence analysis 133
appropriate analytical approach 133–134
colour 138
grain characteristics 145–148
laboratory and analytical requirements 135
macroscopic and microscopic 130, 134–135
magnetic susceptibility 138–139
mineralogy 139–140
particle size and sorting characteristics 136, 137
pH/Eh and cation exchange 138
polarizing light microscopy 140–142
Scanning Electron Microscopy with Energy
Dispersive Systems (SEM-EDS) 142–143
stable isotope analysis 144–145
summary flowchart /53
texture and composition 135–136
thermal analysis 139
‘whole-rock’ geochemistry 139, 140

INDEX
whole sample characteristics 135
X-Ray Diffraction (XRD) method 133, 139, 143–144, 145
historical context of forensic geology 11–12
motor vehicles 122–123
reporting evidence 156
sampling 101–103
search areas 32
urban, semi-urban and rural crime scenes 97–98
soil excavation 75–78
soil morphology 135–136
soil organic matter 150
soil probes 59, 75
SoilFit 15
sonar 186
South Africa Forensic Science Laboratory 17
South America, forensic geology in 19–20
spatial variability of ground conditions 95–96, 98
spores 148–149
stable isotope analysis 144–145
Stable Isotope Profiling (SIP) 61
Standard Operating Procedure (SOP) 50–51
stereoscopic binocular microscopes 133
storing samples 104–105
stripping (soil excavation) 75–76
surface anthropogenic materials 101–103
surfaces, geological trace evidence 117–119
synthetic materials 174–175
tantalum 171
tape lift 115
targeted sampling 99
thermal analysis 139
tin 171
topographical indicators 36, 37
Toronto Stock Exchange (TSE) 175
traffic-light maps 43, 45, 47
trenching 75
Triangulated Irregular Network (TIN) 55
tungsten 171

UK

forensic geology in 13–17
the judicial system 164, 167
Moors Murders 12–13, 26–27
UK Accreditation Service 110
UK Home Office Laboratory 11, 15–16
United Arab Emirates, forensic geology in 19
University of Technology Sydney (UTS) 40, 42
