

# Index

Page numbers in *italics* refer to Figures. Page numbers in **bold** refer to Tables.

- A-type granite/granitoids 3–4, 21–23, 26, *103*  
Lachlan Orogen 54, 58, *60*, *61*, 63–72  
accessory mineral 269  
  petrogenetic modelling 274–275  
  saturation model 282  
  solubility 283–285  
accretionary orogens 53–55, 58, 63  
ACF diagram *119*  
acid–basic, terminology 27  
AFC *see* assimilation–fractional crystallization  
alkaline granite/granitoid 19, 31, *32*, *36–40*, 70–71  
alkaline–subalkaline, nomenclature 27, 28  
alphabet classification 21–23, **43**  
Alpine tectonics 165  
alumina saturation index 102, 128, 135, 183, *188*  
aluminosity in classification 15–20, 22, 41  
amphibole-rich calc-alkaline granitoid 30–32, 35,  
  *36–40*, **43**, 70, 77  
amphibolite melting *167*  
anatexis, intermediate magma 110–111  
Andean volcanic arc 104, *105*  
andesite, high magnesium 108, 112  
andesite, melting experiment 122  
apatite, saturation formula 284  
aplite 184, 185  
aplite–pegmatite couple 180  
appinite 107, 126, 127, 136  
arc basaltic magmatism 79, 89, 91–96  
arc tholeiitic granitoid 30–31  
Archean tonalite, trondhjemite, granodiorite 31–33,  
  35–40, **43**, 44, 77, 127  
Armorican leucogranite 190, *195*  
assimilation–fractional crystallization (AFC) 272, 274,  
  276–278, 281  
Australian plate *56*  
  
back-arc basin 55, 56, 60–63, 70–72  
  inversion 96  
back-arc granite 58, 59  
Barbarin's classification 26, 30, **43**  
barium in melting process 188–194  
Barrovian metamorphic facies 198  
basalt 79, 83, 89, 91–97  
  differentiation 84–85  
  fractionation 77–81  
basic and intermediate rocks 101–103, 106–108  
basic, terminology 27  
batholith, geology 103–108  
  Sardinia–Corsica 244–247  
batholith, origin 4, 77, 102, 111–112  
Bega Batholith *61–62*, 63, 70  
biotite 196–197, 260, *261*  
  dehydration melting 185, 199–200  
  Rcrust modelling 227–230  
  schlieren *246*  
Black Hill Orogen 179, 180–182, 186, 188–192, 195–197  
Buddusò Pluton 244–251, 256, 259–261  
bulk composition, Rcrust modelling 209–219, **225**, 226,  
  227, 229, *230–234*, *237*  
  burial and dehydration 200  
  burial depth 58  
  
Calabria–Peloritani Orogen 148–150, 162, 168  
calc-alkaline *see also under* Iberian  
batholith 103, 123  
granite 72, 77, 244  
terminology misuse 27–29, 44  
calcium number, Rcrust modelling 225, **227**, 228, 229,  
  *230–234*  
Caledonian 'Newer' intrusions 104–107, 111, 126–127,  
  131–134, 136, 139  
Caledonian I-granite 101–102  
Cascade volcanic rocks 135  
Cascades Batholith 104–105, *106*  
cationic parameters 12, 15, 41  
  plutonic rocks *180*  
Central Maine Belt 179, 181, *189*, 190, *191*, *192*, 194, *195*  
chemical composition  
  andesitic magma 122–125  
  data analysis 151  
  experimental melt *129*, *130*  
  and geotectonic setting 23–25  
  in granitoid classification 15–21  
  I-type granite 103–108, **113**, **115–117**  
  leucogranite *184–185*, 188–193, *195–196*  
CIPW (Cross, Iddings, Pirsson, Washington) normative  
  data 11–13, 188–192  
classification, chemical characteristics 33, **43**  
classification, chemistry and mineralogy 11–15
