Instructions to authors

Image and policy of copyright

Carcinogenesis: Integrative Cancer Research is a multidisciplinary journal that brings together research of high quality and relevance to the prevention of cancer in humans. The journal publishes papers that present novel publications in the areas of Biology, Genetics and Epigenetics (including the processes of transcription, translation, genome, epigenome, carcinogenesis, human diseases and molecular epidemiology), and fundamental and translational research, including cancer biology, cancer microenvironment and cancer epidemiology. The Editors may, from time to time, invite short review articles. Authors wishing to propose or submit a review article should contact the Editorial Office or carcinogenesis@oup.com.

Submission of manuscripts

Carcinogenesis accepts submissions online http://carcin.manuscriptcentral.com for any purpose, please contact the editorial office.

Submit as a Microsoft Word 2007 document at this time. Please use Word's "Save As" feature to save your manuscript. Please be sure to submit your file(s) as a single file. Please be sure to check that your metadata is correct for the journal. Please ensure that your manuscript layout follows the instructions as per the following guidelines.

Your file should not be more than 5 MB in size.

Affiliation(s)

The manuscript should have a clear indication of the author's affiliation. Affiliation(s) should be listed as follows:

Affiliation(s):

Biochemistry, Genetics and Molecular Biology
Molecular Epidemiology
Cancer Biomarkers and Molecular Epidemiology

Affiliation (s):

Biochemistry, Genetics and Molecular Biology
Molecular Epidemiology
Cancer Biomarkers and Molecular Epidemiology

Manuscript content

The second page of every manuscript must contain only the Abstract, which should be a concise summary of the main points of the article. It should not exceed 200 words and must not contain any superscripts. The introduction should be followed by the results and discussion sections, which should be separate but should be clearly legible after reduction (maximum dimensions 230 × 155 mm). Authors should ensure that all abbreviations used in the figure. Common abbreviations and others in the preceding text should be in upper case and in a standard size (approximately 12 pt). Any abbreviation used in the figure should be defined in the caption. Common abbreviations and others in the preceding text should be defined in the caption.

Preparation of manuscripts

Manuscripts should be typed in double spacing on standard A4 or letter size paper with a margin of at least 2.5 cm. The text should be divided into sections as follows: Introduction, Results, Discussion, Acknowledgements and References. The title, abstract, and subheadings should be double-spaced, with a minimum of 12 pt typeface size. The main body of the manuscript should be in 12 pt typeface size, with a minimum of 12 pt typeface size.

Preparation of illustrations

All illustrations (line drawings and photographs) should be submitted in the following size of line drawings and photographs:

Presentation of manuscripts

Manuscripts should be typed in double spacing on standard A4 or letter size paper with a margin of at least 2.5 cm. The text should be divided into sections as follows: Introduction, Results, Discussion, Acknowledgements and References. The title, abstract, and subheadings should be double-spaced, with a minimum of 12 pt typeface size. The main body of the manuscript should be in 12 pt typeface size, with a minimum of 12 pt typeface size. Illustrations should be clearly legible after reduction (maximum dimensions 230 × 155 mm). Authors should ensure that all abbreviations used in the figure. Common abbreviations and others in the preceding text should be in upper case and in a standard size (approximately 12 pt). Any abbreviation used in the figure should be defined in the caption. Common abbreviations and others in the preceding text should be defined in the caption.
