We are one of several manufacturers of Lignocaine Hydrochloride, probably the most useful local analgesic known; merchants of this substance are even more numerous. We have specialised in the manufacture and sale of anaesthetics for over a century. Thus we have expert knowledge in this field and widespread contacts among anaesthetists. Our unique position repeatedly emphasises to us our very special responsibilities in maintaining quality, continuing research, providing technical information and exercising restraint in the claims we make and in the manner in which we make them. To ensure obtaining a Lignocaine preparation made by us it is necessary to ask for it 'made by Duncan, Flockhart & Co. Ltd.' or to use the name specially devoted to express all these attributes, in short:

*duncaine*

* a registered trade mark, the property of*

THE CHEMISTRY AND PHYSICS OF ANESTHESIA

Second Edition
Revised and Enlarged

By
JOHN ADRIANI, M.D.
Professor of Surgery
School of Medicine
Tulane University
New Orleans, Louisiana

A new enlarged edition . . . a new title . . . a new emphasis on physics, but retaining still the excellent general plan, grouping of subject matter and scope of "The Chemistry of Anesthesia."

In this edition Doctor Adriani has included the pharmacological and organic chemistry of the NEWER DRUGS, MUSCLE RELAXANTS, STIMULANTS, PARASYMPATHETIC STIMULANTS AND DEPRESSANTS, ANTI-CURARE DRUGS, SYMPATHOMIMETIC AMINES, TRANQUILIZERS, AND OTHER DRUGS USED AS ADJUNCTS TO ANESTHESIA.

To Part I has been added all of the physics that an anesthetist should know concerning . . .

• Apparatus
• Gases
• Management of Safety Practices
• Behaviour of Gases and Vapors in fluids
• Physics Underlying Various Types of Apparatus
• Gas Analysis
• The Latest Information on Carbon Dioxide Absorption and Elimination
• The Chemistry and Physics of the Inorganic Gases

DIETHYL ETHER
Its Effects in the Human Body

By
ROBERT B. DODD, M.D.

Henry A. Mallinckrodt
Professor of Anesthesiology
Washington University School of Medicine
St. Louis, Missouri

FOR THE FIRST TIME—in one compact source—all that is currently known about the effects of ether on the human body . . .

• Absorption, Distribution and Fate
• Effect on the Central Nervous System
• Effect on Respiration
• Effect on Circulation
• Clinical Use

"Metabolic Effects of Ether Anesthesia" are covered in a special chapter by JOHN P. BUNKER, M.D., Professor of Anesthesia, Stanford University School of Medicine.

Publication date January 1962
132 pages
$3.75
5 illustrations

'Fluothane' for patients of all ages

"A highly satisfactory, safe and predictable anaesthetic agent . . ." That was the conclusion of Abajian et al.* after experience with 'Fluothane' in over 5,000 entirely unselected cases. Their findings included a smooth induction, early suppression of pharyngeal and laryngeal reflexes, absence of secretions, adequate muscular relaxation and a rapid recovery.

A wide choice of premedicants from

Five carefully selected combinations of promethazine and pethidine with or without scopolamine or atropine.

'Pamergan' P100 Formula
Pethidine Hydrochloride B.P. 100 mg.
Promethazine Hydrochloride B.P. 50 mg.
in each 2 ml. ampoule

'Pamergan' P100/25 Formula
Pethidine Hydrochloride B.P. 100 mg.
Promethazine Hydrochloride B.P. 25 mg.
in each 1 ml. ampoule

'Pamergan' SP50 Formula
Scopolamine Hydrobromide B.P. 0.43 mg.
Pethidine Hydrochloride B.P. 50 mg.
Promethazine Hydrochloride B.P. 50 mg.
in each 2 ml. ampoule

'Pamergan' SP100 Formula
Scopolamine Hydrobromide B.P. 0.43 mg.
Pethidine Hydrochloride B.P. 100 mg.
Promethazine Hydrochloride B.P. 50 mg.
in each 2 ml. ampoule

'Pamergan' AP100/25 Formula
Atropine Sulphate B.P. 0.6 mg.
Pethidine Hydrochloride B.P. 100 mg.
Promethazine Hydrochloride B.P. 25 mg.
in each 1 ml. ampoule

Manufactured by May & Baker Ltd
Sedative, anti-emetic and anti-histaminic with a drying effect on secretions.

Sedative and hypnotic for use on the nights before and after operation.

Specially designed for Children

Only a small volume of this pleasant tasting preparation is required.

'Vallergan' is also presented as 2 ml. ampoules of a 2.5 per cent solution for injection and as suppositories of 50, 75 and 100 mg.

Detailed information is available on request.

Opportunities for

ANAESTHETISTS

Come to

NATAL

THE GARDEN PROVINCE
OF SOUTH AFRICA

Appointments can be offered to Immigrants or persons can be employed on a Contract basis.

Whether you come as an Immigrant or only for a minimum contract period of two years, boat or air passage to Natal is paid in respect of yourself and your family, while salary commences from the date of your departure for Natal.

Salaries are paid according to experience and qualifications and Immigrants, who satisfy appointment requirements, are eligible for permanent appointment with full pension rights.

Full details may be obtained from the Personnel Officer of the Natal Hospitals Service, Mr. G. K. Powdrell, who will be in London at South Africa House, Trafalgar Square from the 12th July, 1962, and with whom appointments should be made.

NOTICE TO CONTRIBUTORS

This Journal is for the publication of original work in all branches of anaesthesia, including the application of basic sciences. Two issues each year deal mainly with material of educational value.

Papers. Papers are accepted on the understanding that they have not been and will not be published in whole or in part in any other journal. They are subject to editorial revision. Manuscripts should indicate the title of the paper, the name, qualifications and full address of the author, and be in double-spaced typing on one side only of quarto paper with a wide margin.

Abbreviations, Weights and Measures. Abbreviations should follow the convention adopted by the Journal of Physiology. Weights and measures, dosages, etc., should be expressed in the metric system.

Tables. All tables should be on separate sheets, and be capable of interpretation without reference to the text.

Illustrations. Photographs should be unmounted, glossy prints. Drawings, charts and graphs should be in black indian ink on white paper. All illustrations should be clearly numbered with reference to the text on the back and should be accompanied by a suitable legend. The name of the author and title of the paper should also be written on the back of the illustrations.

References. There should be a table of references at the conclusion of the paper. These references should be arranged according to the Harvard system and in alphabetical order. Abbreviations in the references should be according to the World List of Scientific Publications.

In the Harvard system, in the text the year of publication must follow the author's name, more than one paper in any one year being indicated by a small letter (a, b, c) after the date. In the references, the order should be: author's name, followed by initials; year of publication in parentheses; title of paper to which reference is made; title of publication underlined with a single line (to indicate italics) and abbreviated in accordance with the World List of Scientific Periodicals; volume number in arabic numerals, underlined with a wavy line (to indicate bold face); the number of the first page in arabic numerals; thus: Howell, T. H., Harth, J. A. P., and Dietrich, M. (1954). The use of chlorpromazine in geriatrics. Practitioner. 173. 172.

In the case of books, the reference should be as follows: name of author and initials; year of publication in parentheses; title of the book; number of edition; page number; town of origin; publisher; e.g., Hewer, C. L. (1948). Recent Advances in Anaesthesia and Analgesia. 6th ed., p. 120. London: Churchill.

The British Journal of Anaesthesia should be referred to in the references as Brit. J. Anaesth.

Proofs. Proofs will be sent to all contributors. These should be corrected and returned to the Joint Editors within forty-eight hours.

Reprints. Twenty-five reprints of articles will be dispatched to the authors after publication. Further reprints can be supplied if application is made when the proofs are returned.

Copyright. Papers which have been published become the property of the Journal and permission to republish must be obtained from the Editors.
THE INTERNATIONAL MEDICAL ABSTRACTING SERVICE
EXCERPTA MEDICA
AMSTERDAM — LONDON — NEW YORK

offers to medical science:
For each medical specialty a MONTHLY ABSTRACTING JOURNAL containing abstracts in English from every available medical journal in the world.

Two special publications:
(1) SIDE EFFECTS OF DRUGS: an exhaustive and up-to-date review of the use of present-day drugs and their side effects, edited and compiled by L. Meyler, M.D.
(2) PHARMACOLOGICAL AND CHEMICAL SYNONYMS: a collection of more than 8,000 references from the medical literature of the world, compiled by E. E. J. Marler, M.D., M.Sc., Ph.D.

A TRANSLATION SERVICE for the rapid translation of medical publications and manuscripts.

EDITORIAL EXECUTIVE COMMITTEE

General Editors
*E. FALKNER HILL, Late Senior Anaesthetist, Manchester Royal Infirmary
*T. CECIL GRAY, Professor of Anaesthesia, University of Liverpool

Executive Editor
*J. E. RIDING, Demonstrator in the Department of Anaesthesia, University of Liverpool

Editors of Postgraduate Educational Numbers
*R. P. HARBORD, Reader in Anaesthetics, University of Leeds
*A. R. HUNTER, Consultant Anaesthetist, Manchester Royal Infirmary

Consultant Editors
*M. H. ARMSTRONG DAVISON, Consultant Anaesthetist, The United Newcastle upon Tyne Teaching Hospitals
*J. W. DUNDEE, Senior Lecturer in Anaesthetics, Queen’s University of Belfast, Northern Ireland
*W. W. MUSHIN, Professor of Anaesthetics, Welsh National School of Medicine, Wales

Honorary Treasurer
A. R. HUNTER, Consultant Anaesthetist, Manchester Royal Infirmary

*In addition to those individuals on the EDITORIAL EXECUTIVE COMMITTEE whose names are marked with an asterisk, the following are members of the BOARD OF MANAGEMENT AND PROPRIETORS:

R. C. LAWRENCE, Consultant Anaesthetist, United Leeds Hospitals
T. J. C. MACDONALD, Consultant Anaesthetist, Aberdeen Royal Infirmary
A. G. MILLER, Consultant Anaesthetist, Western Infirmary, Glasgow
R. J. MINNITT, Late Senior Honorary Anaesthetist, Royal Liverpool United Hospitals
R. E. PLEASANCE, Lecturer in Anaesthetics, University of Sheffield
H. Q. O. WHEELER, Consultant Anaesthetist, Department of Neurological Surgery, General Hospital, Sunderland
W. D. WYLIE, Consultant Anaesthetist, St. Thomas’s Hospital, London

Papers for publication and all editorial communications should be addressed to either of the Editors at 48–50 Bedford Street North, Liverpool. 7. Business communications should be addressed to the publishers: JOHN SHERRATT AND SON, Park Road, Altrincham, Cheshire. Published monthly. Annual subscriptions (post free): Inland £3 15s.; Overseas £4 4s.; United States and South Americas $12.00. ©John Sherratt and Son, 1962.
Here is a new, more potent intravenous barbiturate, 'Brietal Sodium', which ensures smooth induction of anaesthesia and rapid, clear-headed recovery.

'Brietal Sodium' is of particular value in:
- electro-shock
- dental surgery
- obstetrics
- orthopaedics
- reduction of fractures
- general surgery
- gynaecological examination

'BRIETAL SODIUM'

METHOHEXITONE SODIUM

The average dose is 50-100 mg. in a 1% solution. 'Brietal Sodium' is supplied in ampoules each containing 0.5 Gm.
