<b>Chapter 1</b>	<b>European Food Information Regulations: Recent Developments</b>	<b>1</b>
	<i>Stephen Pugh</i>	
1.1	Introduction	1
1.2	Why Nutrition Information?	3
1.3	Codex Alimentarius	4
1.4	Current Labelling Requirements	5
1.5	Trans Unsaturated Fatty Acids (Trans Fats)	6
1.6	Front-of-Pack (or Traffic Light) Labelling	7
1.7	Nutrition Labelling and Alcoholic Drinks	8
1.8	Tolerances	9
	References	11
<b>Chapter 2</b>	<b>Impact of Health Claims Regulations on the Food Industry and Future Innovation Potential</b>	<b>13</b>
	<i>Katia Merten-Lentz</i>	
2.1	Introduction	13
2.2	From Food Safety Policy to Nutrition and Health Claim Regulation	14
2.2.1	General Food Law and Business Operators	14
2.2.2	Harmonisation of Nutrition and Health Claim Legislation	14
2.3	Scope of EU Nutrition and Health Claim Legislation	16
2.3.1	Claims	16

2.4	From a Particular Characteristic to Nutrition and Health Claims	18
2.4.1	Nutrition Claims	18
2.4.2	Health Claims	18
2.4.3	Generic (Non-specific) Claims	19
2.5	Scientific Substantiation for a Claim	19
2.6	Authoritative Statement of NHC	19
2.6.1	Application	20
2.6.2	From Risk Assessment to Risk Management	20
2.6.3	Nutrient Profiles Issue	21
2.7	Permitted Claims	22
2.7.1	Permitted Nutrition Claims	22
2.7.2	Permitted Health Claims	22
2.7.3	Suspension Claims	22
2.8	Conclusion	23
	References	24
<b>Chapter 3</b>	<b>Supporting the European Food Industry to Meet Nutrient Labelling Regulations</b>	<b>28</b>
	<i>Marie Macháčková, Mark Roe, Marija Ranic and Paul Finglas</i>	
3.1	Introduction	28
3.2	Access to Sources of Food Law	30
3.2.1	European Union	30
3.2.2	EU MS	31
3.3	Guidelines	32
3.3.1	Guidelines: Formats	32
3.3.2	Guidelines on Obtaining Nutrient Values	44
3.4	Training Courses	50
3.5	Consumer Education	51
3.6	Conclusion	51
	Acknowledgements	56
	References	56
<b>Chapter 4</b>	<b>Health Claims Regulation: Opportunities and Challenges in Europe</b>	<b>63</b>
	<i>Judith Buttriss</i>	
4.1	Introduction	63
4.2	What Does the Law Require?	63
4.3	What Types of Claim Are Covered?	64
4.3.1	Nutrition Claims	64
4.4	Health Claims	65

<i>Contents</i>	xi
4.5 Article 13.1 Health Claims	65
4.6 Article 13.5 Health Claims	67
4.7 Article 14 Health Claims	67
4.8 Reference to General Non-specific Health Benefits	68
4.9 Nutrient Profiles	68
4.10 Regulation No 1924/2006 Evaluation: Process in Outline	69
4.11 Novel Foods Legislation	71
4.12 Consumer Understanding of Health Claims	73
4.13 Impact of the Regulation on Small Businesses	74
4.14 Conclusions	75
Acknowledgements	76
References	76
<b>Chapter 5 Use of Nutrition and Health Claims and Symbols on Prepacked Foods in Europe: From Consumer Exposure to Public Health Implications</b>	<b>79</b>
<i>Igor Pravst, Anita Kušar, Krista Miklavec, Sophie Hieke, Monique Raats and Mike Rayner</i>	
5.1 Introduction	79
5.1.1 Prevalence of Nutrition and Health-related Claims on Prepacked Foods	81
5.1.2 Nutritional Quality of Foods Labelled with Claims	83
5.1.3 Ensuring Informed Consumer Choices	84
5.2 Methods and Materials	85
5.3 Results and Discussion	86
5.3.1 Labelling with Nutrition Declaration	86
5.3.2 Labelling of Foods Carrying Nutrition Claims	87
5.3.3 Labelling of Foods Carrying Health Claims	87
5.4 Conclusions	89
Acknowledgements	91
References	91
<b>Chapter 6 Measuring the Effects of Health Claims and Symbols: The CLYMBOL Methodological Toolbox</b>	<b>94</b>
<i>Sophie Hieke and Klaus G. Grunert</i>	
6.1 Introduction	94
6.2 Criteria to Assess Methods Measuring the Effects of Health Claims and Symbols	95
6.2.1 Theory-driven Criteria	95

6.2.2	General Criteria on Validity and Reliability	96
6.2.3	Feasibility in the Study of the Effects of Health Claims and Symbols	96
6.3	Methods for Testing Consumer Understanding of Health Claims and Symbols	96
6.3.1	Consumer Understanding Test (CUT Method)	97
6.3.2	Soft Laddering Interviews (Face-to-Face)	98
6.3.3	Hard Laddering (Online)	98
6.3.4	Conclusions	99
6.4	Methods for Testing Effects of Health Claims and Symbols on Consumer Purchases	99
6.4.1	Sales Data	100
6.4.2	Eye-tracking Study	100
6.4.3	Electrodermal Reactivity Study	100
6.4.4	Implicit Attitude Study	101
6.4.5	Conclusion	101
6.5	Methods for Testing Consumption Effects of Health Claims and Symbols	102
6.5.1	The Breakfast Study	102
6.5.2	Conclusion	103
6.6	Recommendations for the Use of Methods by Various Stakeholders	104
6.6.1	Recommendations for Regulators	104
6.6.2	Recommendations for the (Food) Industry	104
6.6.3	Recommendations for Consumer Scientists	104
	References	105
<b>Chapter 7</b>	<b>Food Allergen Labelling Regulation</b>	<b>107</b>
	<i>Luca Bucchini, Matthew Daly and E. N. Clare Mills</i>	
7.1	Introduction	107
7.2	Food Allergen Regulation and Labelling	108
7.2.1	Mandatory Allergen Labelling	108
7.2.2	Regulated Priority Food Allergens around the World	110
7.2.3	Allergen Declarations	116
7.2.4	Voluntary Precautionary Allergen Labelling	118
7.3	Allergen-free Food Regulation and Labelling	120
7.4	Conclusions	123
	References	123

<i>Contents</i>	xiii
<b>Chapter 8 The Impact of “Labelling” on the Beliefs, Attitudes and Behaviours of Consumers with Food Allergy: A Multilevel Perspective</b>	<b>127</b>
<i>Audrey Dunn Galvin</i>	
8.1 Introduction	127
8.2 The Individual (Micro) System	129
8.3 The Society (Macro) System	132
8.4 What Can Help From a Multilevel Perspective?	134
References	135
<b>Chapter 9 Food Labelling Practices in North America: Canada and the USA</b>	<b>141</b>
<i>Samuel Benrejeb Godefroy and Kenneth Teng</i>	
9.1 Introduction	141
9.2 Food Labelling Measures Imposed as a Risk Management Approach	142
9.2.1 Nutrition Facts Labelling	143
9.2.2 Mandatory Labelling of Mechanically Tenderised Meat Products	150
9.2.3 Mandatory Food Allergen Labelling Measures	152
9.3 Discretionary Food Labelling Measures Framed with Regulatory Requirements	155
9.3.1 Health Claims	155
9.3.2 Gluten-free/Allergen-free Claims	157
9.4 Conclusion	159
Competing Interests Declaration	159
Contributions	159
References	159
<b>Chapter 10 Supporting Food Health Claims in New Zealand’s Regulatory Environment</b>	<b>164</b>
<i>Carolyn E. Lister</i>	
10.1 Introduction	164
10.2 Navigating the Claim Options	166
10.2.1 Nutrient Content Claims	167
10.2.2 Health Claims	167
10.2.3 The New Zealand Food Composition Database – A Useful Tool to Support Claims	169

10.3	Antioxidant Claims	171
10.4	Developing Branded Products: <b>vital</b> vegetables <sup>®</sup>	172
10.5	Developing a Self-substantiation Dossier	173
10.6	Conclusions	174
	Acknowledgements	176
