Chapter 1	Turmeric – The Miraculous Herb from Ancient India and its Historical Background	1
	<i>K. S. Akhila and Sreeraj Gopi</i>	
1.1	Introduction	1
1.2	Turmeric (Haridra) – in the Vedic Period	2
1.3	Haridra in Nighantus	2
1.4	Varieties of Haridra	3
1.5	<i>Rasa Panchaka</i> (Five Properties of Drug) of Haridra and its Therapeutic Effects	3
1.6	Haridra in Ayurveda Treatises – Charaka Samhitha, Ashtanga Hrudayam, Susrutha Samhitha and Sarngadhara Samhitha	4
1.7	The Drug Groups of Haridra	4
1.8	The Main Named Formulations of Haridra	5
1.9	Other Sources where Haridra is Mentioned in Ayurveda Treatises	7
1.10	Conclusion	9
	References	9
Chapter 2	Chemistry of Turmeric	30
	<i>Akhila Nair and Sreeraj Gopi</i>	
2.1	Introduction	30
2.2	Conventional Stratification on Turmeric	31
2.3	Turmeric Oleoresin	32

Food Chemistry, Function and Analysis No. 25
The Chemistry and Bioactive Components of Turmeric
Edited by Sreeraj Gopi, Sabu Thomas, Ajaikumar B. Kunnumakkara,
Bharat B. Aggarwal and Augustine Amalraj
© The Royal Society of Chemistry 2021
Published by the Royal Society of Chemistry, www.rsc.org

2.4	Volatile Oil and/or Non-curcuminoid Component of Turmeric	35
2.5	Constituents and Structural Studies of Turmeric oil and/or Non-curcuminoids	36
2.6	Analysis of Turmeric Essential Oil and/or Non-curcuminoids	39
2.7	Biological Activities of Volatile and/or Non-curcuminoid Compounds of Turmeric	39
2.8	Non-volatile Components of Turmeric	40
2.8.1	Constituents and Structural Studies of Non-volatile Components of Turmeric	42
2.8.2	Analysis of Non-volatile Turmeric Compounds	44
2.9	Biological Activities of Non-volatile Compounds of Turmeric	46
2.10	Biosynthesis of Curcumin	47
2.11	Stability Studies of Curcumin	49
2.12	Conclusion	50
	References	50
Chapter 3	Geographical Variations of Turmeric and Curcumin	53
	<i>Joby Jacob, Shintu Jude and Sreeraj Gopi</i>	
3.1	Introduction	53
3.2	Studies on the Variations of Curcumin Content	55
3.3	Studies on the Variation in Essential Oil Content	55
3.4	Genetic Variations and Environmental Factors on the Yield and Quality of Turmeric	56
3.4.1	Factors with the Curcumin <i>Synthase</i> (CURS) Gene	56
3.4.2	Genetic Diversity in Different Agro-climatic Regions	56
3.4.3	Effect of Agro-climatic Zones in a Single Cultivar	57
3.4.4	Effect of Agro-climatic Zones on Different Cultivars	58
3.5	Agricultural Study Patterns	58
3.5.1	Experiments by Greenhouse Studies	59
3.5.2	Field Trials	59
3.6	Molecular Markers' Studies	60
3.7	Different Techniques and Technologies Regarding Curcumin Content	61
3.8	Effect of Maturity in Curcumin Content	62
3.9	Studies on Growth, Yield and Quality Parameters with Agro-climatic Zones in India	62
3.10	Agricultural Practices and Processing Methods	65
3.11	Conclusions	67
	References	67

Chapter 4	Turmeric – Active Ingredients Other than Curcuminoids	71
	<i>Augustine Amalraj, Nimisha Pulikkal Sukumaran and Sreeraj Gopi</i>	
4.1	Introduction	71
4.2	Chemical Composition of Turmeric	72
4.2.1	Curcuminoids and Their Related Components	79
4.2.2	Terpenes	82
4.2.3	Flavonoids	90
4.3	Other Important Components in Turmeric	93
4.3.1	Polysaccharides	94
4.3.2	Starch	95
4.3.3	Dietary Fiber	95
4.3.4	Cellulose	96
4.3.5	Pectin	96
4.3.6	Turmeric Protein	97
4.4	Biological Activities of the Active Ingredients of Turmeric	97
4.5	Conclusion	98
	Acknowledgements	98
	References	98
Chapter 5	Curcuminoids – Isolation, Formulations and Bioavailability Problems	104
	<i>Bernd-Michael Löffler, Shintu Jude, Augustine Amalraj and Sreeraj Gopi</i>	
5.1	Introduction	104
5.2	Discovery of Curcumin	105
5.3	Isolation of Curcumin	105
5.4	Physical, Chemical and Molecular Properties of Curcuminoids	106
5.5	Why are Formulations Needed for Curcumin?	107
5.6	Different Formulations	108
5.6.1	Adjuvants for Bioavailability Enhancement	109
5.6.2	Enhancement through Nanotechnology	113
5.6.3	Micronized Formulations	114
5.6.4	Encapsulation	114
5.6.5	Curcumin Formulations Incorporating Lipid Matrices	115
5.6.6	Reconstitution with Non-curcuminoids	117
5.6.7	Complete Natural Turmeric Matrix	117
5.7	The Narrative of Bioavailability	118
5.8	Conclusion	129
	References	129

Chapter 6	Curcumin Pharmacokinetics and Plasma Determination	136
	<i>Sidney J. Stohs, Harry G. Preuss, Jin Ji, C. Y. Oliver Chen, Kevin J. Ruff, Sidhartha D. Ray and Luke R. Bucci</i>	
6.1	Introduction	136
6.2	Curcumin Metabolism	137
6.3	Hydrolysis vs. No Hydrolysis of Plasma Samples	138
6.4	Pharmacokinetic Studies	141
6.5	Discussion	145
6.6	Conclusions	147
	Acknowledgements	147
	References	147
Chapter 7	Curcumin: A Potential Molecule for the Prevention and Treatment of Inflammatory Diseases	150
	<i>Bano Shabnam, Choudhary Harsha, Krishan Kumar Thakur, Elina Khatoon and Ajaikumar B. Kunnumakkara</i>	
7.1	Introduction	150
7.2	Molecular Targets of Curcumin in Inflammation	153
7.3	Curcumin for the Treatment of Inflammatory Diseases	154
7.4	Curcumin and Inflammatory Diseases: Clinical Trials	155
7.4.1	Allergic Rhinitis	155
7.4.2	Asthma	158
7.4.3	Chronic Gastritis	158
7.4.4	Chronic Kidney Disease	158
7.4.5	Chronic Prostatitis	159
7.4.6	Gingivitis	159
7.4.7	Inflammatory Bowel Disease	160
7.4.8	Nephritis	160
7.4.9	Oral Lichen Planus	161
7.4.10	Oral Mucositis	161
7.4.11	Oral Submucous Fibrosis	162
7.4.12	Osteoarthritis	162
7.4.13	Peptic Ulcer	163
7.4.14	Periodontitis	163
7.4.15	Rheumatoid Arthritis	163
7.4.16	Tropical Pancreatitis	164
7.4.17	Ulcerative Proctitis	164
7.4.18	Uveitis	164

<i>Contents</i>	xiii
7.5 Conclusion	165
Conflict of Interest	165
References	165
Chapter 8 Biological Activities of Curcuminoids	172
<i>Ritu Mishra and Anil K. Gupta</i>	
8.1 Introduction	172
8.2 Composition of Turmeric	173
8.2.1 Chemical Composition of Turmeric and Their Natural Analogues	173
8.2.2 Essential Oil Composition in Turmeric	175
8.2.3 Curcuminoids	179
8.2.4 Antioxidant Activity of Curcuminoids	180
8.3 Pharmacological Activities of Curcuminoids	184
8.3.1 Anti-inflammatory	185
8.3.2 Neuroprotective	185
8.3.3 Antidiabetic	186
8.3.4 Anticancer	186
8.3.5 Cardioprotective	186
8.4 Conclusions	187
Acknowledgements	187
References	187
Chapter 9 Biosynthesis of Curcumin and Molecular Targets and the Biological Mechanism of Curcumin	196
<i>Y. Baspinar and H. Akbaba</i>	
9.1 Introduction	196
9.2 Biosynthesis of Curcumin	198
9.2.1 Natural Pathway of Curcumin Biosynthesis in <i>C. longa</i>	198
9.2.2 Artificial Pathways of Curcuminoid Biosynthesis in Recombinant <i>E. coli</i>	199
9.3 Biological Mechanism of Curcumin and Molecular Targets	201
9.3.1 Pro-angiogenic Factors	201
9.3.2 Cell Cycle Regulators	202
9.3.3 Metastasis and Transcription Factors	203
9.3.4 Proteins Kinases	205
9.3.5 miRNA	207
9.3.6 DNA	209
9.3.7 Cellular Death	209
9.4 Conclusion	212
References	212

Chapter 10	The Effect of Turmeric in Gut Diseases	221
	<i>Augustine Amalraj, Nimisha Pulikkal Sukumaran, Akhila Nair and Sreeraj Gopi</i>	
10.1	Introduction	221
10.2	Importance of Turmeric and Its Active Constituent Curcumin	223
10.3	Mechanism of Action of CUR Against Gut Diseases	225
10.3.1	Inhibition of Transcription Factor NF- κ B Activation and I κ B Phosphorylation	225
10.3.2	Inhibition of Nitric Oxide Production	227
10.3.3	Inhibition of COX-2 Receptors	227
10.3.4	Inhibition of Cytokines	227
10.4	Clinical Trials and Studies Conducted on CUR	229
10.5	Pharmaceutical Formulations of CUR	232
10.6	Conclusion	234
	Acknowledgements	234
	References	234
Chapter 11	Molecular Docking Studies of Curcumin	239
	<i>Y. Baspinar</i>	
11.1	Introduction	239
11.2	Molecular Properties of Curcumin	240
11.3	Interaction and Binding Mechanism of Curcumin	240
11.4	Molecular Docking Studies of Curcumin	241
11.5	Molecular Docking Studies of Curcumin Analogs	244
11.6	Conclusion	244
	References	245
Chapter 12	Biological Activities of Non-curcuminoids	249
	<i>Swee Keong Yeap and Wan Yong Ho</i>	
12.1	Introduction	249
12.2	Non-curcuminoid in Turmeric	250
12.3	Anticancer Effects of <i>C. longa</i> STs	253
12.3.1	Cytotoxic and Anti-tumour Effect of Bisabolane-type of <i>C. longa</i> STs	258
12.3.2	Cytotoxic and Anti-tumour Effect of Elemene-type of <i>C. longa</i> ST	265
12.3.3	Cytotoxic and Anti-tumour Effect of Germacrane-type of <i>C. longa</i> STs	268
12.3.4	Cytotoxic and Anti-tumour Effect of Guaiane and Other Types of <i>C. longa</i> STs	271
12.3.5	Synergistic Effect of <i>C. longa</i> STs with Other Cancer Treatments	271

12.3.6	Current Progress of the Clinical Trial of <i>C. longa</i> STs	271
12.3.7	Limitations of the Current Anticancer Studies of <i>C. longa</i> STs	272
12.4	Immunomodulation Effect of <i>C. longa</i> STs	273
12.5	Hepatoprotective Activity of <i>C. longa</i> STs	275
12.6	Neuroprotective Effect of <i>C. longa</i> STs	275
12.7	Analgesic/Depressive Activity of <i>C. longa</i> STs	277
12.8	Cardioprotective Activity of <i>C. longa</i> STs	277
12.9	Other Bioactivities of <i>C. longa</i> STs	278
12.10	Other Non-curcuminoids and their Bioactivities	278
12.11	Conclusion	281
	References	281
Chapter 13	Toxicology Aspects of Turmeric	293
	<i>Swapnil P. Borse, Abhishek S. Kulkarni, Hemant Koshia, Kamala K. Vasu and Manish Nivsarkar</i>	
13.1	Turmeric and Toxicology: An Overview	293
13.2	Factors Affecting the Toxicological Aspects of Turmeric	294
13.2.1	Interactions of Turmeric as a Therapeutic Adjuvant	295
13.3	Marketed Turmeric Formulations and Toxicological Aspects	298
13.4	Methods for Early Prediction of Toxicity	298
13.4.1	Chemoinformatics	298
13.4.2	Ayur-informatics	299
13.5	Management of Turmeric Toxicity	299
13.5.1	Traditional Methods to Ensure the Safety of Turmeric and Its Formulations	299
13.6	Turmeric – Hype or Hope	300
13.7	Limitations and Future Perspective	301
13.8	Discussion and Conclusion	301
	Conflict of Interest	303
	Acknowledgements	303

Chapter 14	Production, Economics and Marketing of Turmeric	307
	<i>Karthik Varma and Sreeraj Gopi</i>	
14.1	Introduction	307
14.2	Production of Turmeric	308
14.2.1	Global Scenario	308
14.2.2	Indian Scenario	308

14.3	Varieties of Turmeric	309
14.4	State-wise Production	309
14.4.1	Telangana	309
14.4.2	Maharashtra	309
14.4.3	Other States	310
14.5	Economics, Factors and Trends in Turmeric Production	313
14.5.1	Economics of Turmeric Production	313
14.5.2	Constraints for Turmeric Production	313
14.5.3	Trend in Turmeric Production	315
14.6	Marketing	315
14.6.1	Products of Commercial Importance	315
14.6.2	Organic Turmeric	316
14.6.3	Fresh Rhizome	316
14.6.4	Dried Rhizome	316
14.6.5	Turmeric Oleoresin/Oil	316
14.6.6	Turmeric Oil	316
14.6.7	Curcumin 95%	317
14.6.8	Bioavailable Curcuminoids	317
14.6.9	Encapsulated Products	317
14.6.10	Value-added Products	317
14.6.11	Turmeric and Ayurveda	317
14.7	Export and Import Scenario	318
14.7.1	Factors Dominating the Trade/export	318
14.7.2	Export Market	319
14.7.3	Import	319
14.8	Market Structure	320
14.9	Marketing Prospects	320
14.10	Risks and Uncertainty	321
14.11	Conclusion	321
