Drug disclaimer
The mention of trade names, commercial products or organizations, and the inclusion of advertisements in the journal
does not imply endorsement by the Guarantors of Brain, the editors, the editorial board, Oxford University Press or the
organization to which the authors are affiliated. The editors and publishers have taken all reasonable precautions to verify
drug names and doses, the results of experimental work and clinical findings published in the journal. The ultimate
responsibility for the use and dosage of drugs mentioned in the Journal and in interpretation of published material lies with
the medical practitioner, and the editors and publishers cannot accept liability for damages arising from any errors or
omissions in the journal. Please inform the editors of any errors.

Disclaimer
Statements of fact and opinion in the articles in Brain are those of the respective authors and contributors and not of
Brain or Oxford University Press. Neither Oxford University Press nor Brain make any representation, express or implied,
in respect of the accuracy of the material in this journal and cannot accept any legal responsibility or liability for any
errors or omissions that may be made. The reader should make his/her own evaluation as to the appropriateness or
otherwise of any experimental technique described.
