Drug disclaimer
The mention of trade names, commercial products or organizations, and the inclusion of advertisements in the journal does not imply endorsement by the Guarantors of Brain, the editors, the editorial board, Oxford University Press or the organization to which the authors are affiliated. The editors and publishers have taken all reasonable precautions to verify drug names and doses, the results of experimental work and clinical findings published in the journal. The ultimate responsibility for the use and dosage of drugs mentioned in the Journal and in interpretation of published material lies with the medical practitioner, and the editors and publishers cannot accept liability for damages arising from any errors or omissions in the journal. Please inform the editors of any errors.

Disclaimer
Statements of fact and opinion in the articles in Brain are those of the respective authors and contributors and not of Brain or Oxford University Press. Neither Oxford University Press nor Brain make any representation, express or implied, in respect of the accuracy of the material in this journal and cannot accept any legal responsibility or liability for any errors or omissions that may be made. The reader should make his/her own evaluation as to the appropriateness or otherwise of any experimental technique described.
