Corrigendum

Exploiting indirect neighbours and topological weight to predict protein function from protein–protein interactions

Hon Nian Chua, Wing-Kin Sung and Limsoon Wong

Bioinformatics (2006) 22(13), 1623–1630

The authors would like to apologize for an error in Equation (5).

The correct equation should be:

\[ S_{FS}(u, v) = \frac{2}{\sum_{w \in (V_2 \cap N_1)} r_{uw} r_{vw}} \times \left( \sum_{w \in (V_1 - N_1)} r_{uw} + \sum_{w \in (V_2 \cap N_1)} r_{uw} (1 - r_{uw}) \right) + \frac{2}{\sum_{w \in (V_2 \cap N_1)} r_{uw} r_{vw}} \times \left( \sum_{w \in (V_1 - N_1)} r_{vw} + \sum_{w \in (V_2 \cap N_1)} r_{vw} (1 - r_{vw}) \right) \]
