Corrigendum

A novel signal processing approach for the detection of copy number variations in the human genome
Catherine Stamoulis and Rebecca A. Betensky

Bioinformatics (2011) 27(17) 2338–2345

The authors apologize for the following minor wording error at the bottom of p. 2344. The last sentence in the left column should read:

However the computational cost of CBS was significantly higher (at least five times higher in simulations and eight times in real data), instead of \[O(5)\) in simulations and \(O(8)\) in real data].
