

# Notes

## Chapter 2

1. Hill (2012) provided a story in which a teen was identified as pregnant before her parents knew. Perhaps humorously, a data scientist at Facebook (Fraser, 2020) wrote a rebuttal eight years later about how this was neither representative nor, if it was true, a particularly bad thing.
2. Berland (2015) goes into more depth on data and design using this example.
3. <https://twitter.com/censusAmericans/status/1284956186366836741>

## Chapter 6

1. Scratch is the predominant programming language for younger children world-wide (Resnick et al., 2009).
2. Intelligent libraries always turn evil, according to *Star Trek* itself (Kelly & Zurek, 2021).

## Chapter 8

1. Note to the reader: A hand turkey is not a canonical example of principled maker education (but it is also not *not* maker education).
