## Acknowledgments

This book would not have been completed without the support and patience of our editor, Susan Buckley, and the anonymous reviewers who gave us thoughtful, thorough, and helpful feedback. We would also like to thank our family and friends who championed our cause and didn't balk at the lost weekends and summer days we spent writing rather than with them. We would like to give a shout out to all the teachers who worked with us for the teacher's voice in the book: Drew Blanchard, Sara Fergus, Leah Hammond, and Sue McKegney. We would like to thank William R. Doyle for his ideas and teacher's perspective on chapter 5, and Radhakrishna Dasari, Bernice Garnett, and Curtis Wilcox, who helped us with chapter 6. We would also like to thank David Miller for his thoughtful review and ideas for an encore edition. We appreciate the time Roman Vogel and John Miller took to read too many versions of this book over the years. Finally, we want to thank the people at Westchester Publishing, Planet Cat Books, and Insightful Indexing who helped get the book through its final stages.

The MIT Press would like to thank the anonymous peer reviewers who provided comments on drafts of this book. The generous work of academic experts is essential for establishing the authority and quality of our publications. We acknowledge with gratitude the contributions of these otherwise uncredited readers.

This book was set in Stone Serif and Stone Sans by Westchester Publishing Services.

Library of Congress Cataloging-in-Publication Data

Names: Neumann, Maureen D., author. | Dion, Lisa (Computer scientist), author.

Title: Teaching computational thinking : an integrative approach for middle and high school learning / Maureen D. Neumann and Lisa Dion with Robert Snapp.

Description: Cambridge, Massachusetts : The MIT Press, 2021. | Includes bibliographical references.

Identifiers: LCCN 2021000766 | ISBN 9780262045056 (paperback)

Subjects: LCSH: Computer science—Study and teaching (Secondary) | Critical thinking—Study and teaching (Secondary)

Classification: LCC QA76.27 .N474 2021 | DDC 004.071—dc23
