## REORIENTING SYSTEMS DESIGN

---

How will the rest of the story unfold? It is within our power to write a different future, if we can summon the courage to do so.

—Hickel (2020, 290)

So, I think my problem, and “our” problem, is how to have simultaneously an account of radical historical contingency for all knowledge claims and knowing subjects, a critical practice for recognizing our own “semiotic technologies” for making meaning, and a no-nonsense commitment to faithful accounts of a “real” world, one that can be partially shared and that is friendly to earthwide projects of finite freedom, adequate material abundance, modest meaning in suffering, and limited silliness.

—Haraway (1988, 579)
