The MIT Press would like to thank the anonymous peer reviewers who provided comments on drafts of this book. The generous work of academic experts is essential for establishing the authority and quality of our publications. We acknowledge with gratitude the contributions of these otherwise uncredited readers.

This book was set in Stone Serif and Stone Sans by Westchester Publishing Services.

Library of Congress Cataloging-in-Publication Data

Names: Nersessian, Nancy J., author.

Title: Interdisciplinarity in the making : models and methods in frontier science / Nancy J. Nersessian.

Description: Cambridge, Massachusetts : The MIT Press, [2022] | Includes bibliographical references and index.

Identifiers: LCCN 2021061880 (print) | LCCN 2021061881 (ebook) | ISBN 9780262544665 | ISBN 9780262372268 (epub) | ISBN 9780262372275 (pdf)

Subjects: LCSH: Biotechnology—Methodology. | Bioengineering—Methodology. | Biotechnology—Research—Case studies. | Bioengineering—Research—Case studies. | Biotechnology laboratories. | Scientific surveys. | Interdisciplinary research.

Classification: LCC TP248.24 .N47 2022 (print) | LCC TP248.24 (ebook) | DDC 660.6—dc23/eng/20220720
