Library of Congress Cataloging-in-Publication Data

Names: Hansen, Thomas F., editor.

Title: Evolvability : a unifying concept in evolutionary biology? / edited by Thomas F. Hansen, David Houle, Mihaela Pavličev, and Christophe Pélabon.

Description: Cambridge, Massachusetts : The MIT Press, [2023] | Series: Vienna series in theoretical biology |

Includes bibliographical references and index.

Identifiers: LCCN 2022038288 (print) | LCCN 2022038289 (ebook) | ISBN 9780262545624 (paperback) |

ISBN 9780262374705 (epub) | ISBN 9780262374699 (pdf)

Subjects: LCSH: Evolution (Biology)—Philosophy.

Classification: LCC QH360.5 .E99 2023 (print) | LCC QH360.5 (ebook) | DDC 576.801—dc23/eng/20220920
