### FUTURE ANNUAL MEETINGS OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH

2004 March 27–31, Orlando, FL  
2005 April 16–20, Anaheim, CA

### AACR SPECIAL CONFERENCES IN CANCER RESEARCH

A number of meetings are now being organized in the AACR's series of smaller scientific meetings. Following are the topics, dates, locations, and program committees for these meetings. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, American Association for Cancer Research, 615 Chestnut Street, 17th Floor, Philadelphia, PA 19106-4404. Up-to-date program information is also available via the Internet at the AACR's website (<http://www.aacr.org>).

## Correction

In the article by G. M. Yousef *et al.*, entitled “Human Kallikrein 5: A Potential Novel Serum Biomarker for Breast and Ovarian Cancer,” which appeared in the July 15, 2003 issue of *Cancer Research* (pp. 3958–3965), Figure 3 was printed incorrectly. Below is the correct figure and caption.

Fig. 3. Distribution of hK5 concentration in serum of patients diagnosed with various malignancies. Sera from normal female and male subjects were also included. High hK5 concentration ( $>100^{\text{th}}$  percentile of normals) is found in a proportion of patients with ovarian and breast cancers. For more details on patient numbers and proportion of patients with elevated values, see text. Filled diamonds represent overlapping values of hK5.
