## PATHOLOGY MEETINGS

The VII Latin American Congress of Pathology and II Panamerican Meeting of the International Academy of Pathology will be held in Buenos Aires, Argentina, November 20–27, 1969. Further information may be obtained by writing to: Prof. Dr. Mauricio Rapaport, Montevideo 945, Buenos Aires, ARGENTINA.

## NATIONAL CONFERENCE ON BREAST CANCER

The National Conference on Breast Cancer, sponsored by the American Cancer Society and the Cancer Control Program, United States Public Health Service, will be held at the Shoreham Hotel in Washington, D. C., on May 8–10, 1969.

For further information contact: Dr. Roald N. Grant, National Conference on Breast Cancer, American Cancer Society, Inc., 219 East 42nd Street, New York, New York 10017.

## RESEARCH TRAINING FELLOWSHIPS 1970

Under the auspices of the International Agency for Research on Cancer, Lyon, France, training fellowships in 1970 are being given to junior scientists who wish to be trained in any aspect of laboratory and clinical cancer research. The Agency is especially interested in receiving applications for training in epidemiology, biostatistics, and all aspects of environmental biology. Applicants should be engaged in research in medical or allied sciences and intend to pursue a career in cancer research.

Fellowships are awarded for one year and are tenable in a suitable institution abroad. In special circumstances an extension for a second year may be granted. Fellows will, in general, be selected from applicants with less than five years postdoctoral experience in medicine or the natural sciences; they must have an adequate knowledge, both written and spoken, of the language of the country in which their fellowship is tenable.

Stipends will vary according to the cost of living in the country of study. The cost of travel for the applicant and, in certain circumstances, that of his wife and children, will be met.

Fellowship application forms must reach the Agency not later than April 30, 1969. More detailed information is available from: The Chief of the Education and Fellowships Programme, International Agency for Research on Cancer, 16, avenue Maréchal-Foch, 69-Lyon (6<sup>e</sup>), France.

## Erratum

In the article "Cytogenetic Studies on Rat Leukemia Induced by Pulse Doses of 7,12-Dimethylbenz( $\alpha$ )anthracene" by Yoshinori Kurita, Taketoshi Sugiyama, and Yasuaki Nishizuka, published in the September 1968 issue of *CANCER RESEARCH*, the following corrections should be noted. On page 1740, Table 1, the numbers under the heading *No. of cells with chromosome number:* should read 40, 41, 42, 43, 44, 45, etc. and not 41, 42, 43, 44. Each of the former numbers should also be directly above the respective columns and not between the columns.
