SYMPOSIUM ON HEALTH POLICY AND CHRONIC ILLNESS: THE NATIONAL DEBATE

A national symposium designed to bring together health science practitioners and distinguished scholars in the area of health policy and chronic illness is planned for February 17 and 18, 1979, at the Sheraton-Palace Hotel, San Francisco, California. The following questions will be addressed: what is chronic illness in the United States, who has it, and what are its social and economic impacts? The symposium will be of special interest to physicians, dentists, nurses, pharmacists, allied health professionals, and persons providing direct service for the chronically ill, as well as persons concerned with the development and implementation of health policy. It is also open to the general public. For program information please call: (415) 666-3904. For registration information please call: (415) 666-2894.

ANNUAL SURVEY COURSE IN IMMUNOLOGY

The Annual Survey Course in Immunology, sponsored by the American Association of Immunologists, will be held at Frederick, Maryland, July 23 through August 3, 1979. The course will give basic coverage of the current fields of immunobiology, immunology, immunogenetics, clinical and tumor immunology. It is intended primarily for graduate students, postdoctoral trainees, university or college instructors, and clinicians, who wish to expand their knowledge of the current field of immunology. Appli-

cations for enrollment should include curriculum vitae; current research, teaching or clinical activities; background training in immunology; and reasons for wishing to enroll. The registration fee is \$150. Dormitory accommodations and meal facilities are available at a moderate charge. Applications should be submitted to Dr. M. G. Hanna, Jr., Cancer Biology Program, Frederick Cancer Research Center, P. O. Box B, Frederick, Maryland 21701, no later than April 15, 1979. No formal application forms are needed.

RESEARCH FELLOWSHIPS IN CANCER

Positions are available for two years of training at the Comprehensive Cancer Center for the State of Florida, in the following areas of basic and clinical research: carcinogenesis, molecular and cellular biology, cellular proliferation and differentiation, pharmacokinetics, and experimental therapeutics. The program is designed for M.D.'s with at least two years of postdoctoral training who plan an academic career and is open to U.S. citizens and permanent residents only. Send inquiries and curriculum vitae to: Dr. Francisco Tejada, Department of Oncology, University of Miami, P.O. Box 016960, Miami, Florida 33101.

SYMPOSIUM ON IMMUNODEFICIENT ANIMALS IN CANCER RESEARCH

The Medical Research Council Laboratory Animals Centre will hold a symposium entitled "Immunodeficient Animals in Cancer Research," in London, England, February 15 and 16, 1979. For further information, contact: The Information Officer, MRC Laboratory Animals Center, Woodmansterne Road, Carshalton, Surrey SM5 4EF, England.

Erratum

The following correction should be noted in the article by R. I. Glazer *et al.*, entitled "Potentiation by 2'-Deoxycoformycin of the Inhibitory Effect by 3'-Deoxyadenosine (Cordycepin) on Nuclear RNA Synthesis in L1210 Cells *in Vitro*," which appeared in the August 1978 issue. On page 2234, the abscissa of Chart 2 should read, " 10^{-6} , 10^{-5} , 10^{-4} , 10^{-3} " and not " 10^{-7} , 10^{-6} , 10^{-5} , 10^{-4} ."
