

INTERNATIONAL CONGRESS OF CHEMOTHERAPY

The 13th International Congress of Chemotherapy, organized by the Austrian Society of Chemotherapy as a member of the International Society of Chemotherapy, will take place at the Kongresszentrum-Hofburg, Vienna, Austria from August 28 to September 2, 1983. The scientific program will consist of main lectures (without parallel sessions), symposia, round table sessions, and free papers with posters. The program will include antimicrobial as well as anticancer topics. Abstracts (4 pages) will have to be submitted ready for print on an official abstract form to permit the possibility of prepublication. The deadline for submission of abstracts is May 1, 1983. Questions and requests for further information should be directed to the president of the congress: Professor Dr. med. K. Karrer, Institute for Cancer Research of the University, Borschkegasse 8A, A-1090 Wien, Austria.

Errata

The following errors occurred in the September 1981 article by F. Wurm *et al.*, entitled "Suppression of Melanoma Development and Regression of Melanoma in Xiphophore Fish after Treatment with Immune RNA." On page 3380, in the fourth paragraph of the Discussion, line 6, reference numbers 9 and 31 should have been changed to 11 and 34. On page 3382, in line 3 of the legend to Figure 1, the letters *b* and *d* should have been interchanged.

Please note the following correction to the October 1981 article by S. J. LeGrue *et al.*, entitled "Immunobiological Properties of 1-Butanol-extracted Cell Surface Antigens." On page 3958, the second sentence of the Discussion should read, "Pretreatment of syngeneic mice in a 2-way immunoprotection assay with 10 to 100 μ g of CBE-F or CBE-2A specifically reduced the outgrowth of the homotypic, but *not* the non-cross-reactive, tumor."

Two errors occurred on page 4143 of the article by R. Schulte-Hermann and Wolfram Parzefall, entitled "Failure to Discriminate Initi-

ADVANCES IN CANCER DETECTION

The Hospital of the Good Samaritan, Los Angeles, California, is sponsoring a medical symposium entitled "Advances in Cancer Detection," on February 17, 1982 at the Biltmore Hotel in Los Angeles. The symposium is acceptable for up to 7 hours of Category 1 credit toward CMA and AMA certificates in Continuing Medical Education. The fee, which includes luncheon, is \$75.00 for practicing M.D.'s and \$35.00 for all others. Contact: Ms. Bonnie VanWaardenburg, The Hospital of the Good Samaritan, 616 South Witmer Street, Los Angeles, California 90017.

ation from Promotion of Liver Tumors in a Long-Term Study with the Phenobarbital-type Inducer α -Hexachlorocyclohexane and the Role of Sustained Stimulation of Hepatic Growth and Monooxygenases," which appeared in the October 1981 issue. In Table 2, the letter *c* should be deleted from the first entry under the heading "Microsomal protein (mg/g liver)." In Table 3, Column 1, under the word "Total," the first entry should read "0" and the second entry should read "+c". Footnote *c* of that table should read, "c +, all α -HCH-treated rats."

A correction should be noted in the November 1981 article by R. Riccardi *et al.*, entitled "L-Asparaginase Pharmacokinetics and Asparagine Levels in Cerebrospinal Fluid of Rhesus Monkeys and Humans." On page 4557, in the last paragraph of the "Results," line 7 should read, "had a CSF asparagine concentration of $<0.2 \mu$ M at 3 days".
