

## Errata

The article "The Contribution of Medicine to the Primary Treatment of Breast Cancer" by G. Bonadonna and P. Valagussa, a "Perspectives in Cancer Research" article which appears on pp. 2314-2324 of the May 1, 1988, issue, contains an error in Figure 4 on p. 2319. The top panel of the figure is incorrect. The correct version of the figure is printed below.

The article "Resistance of Human Leukemic and Normal Lymphocytes to Drug-induced DNA Cleavage and Low Levels of DNA Topoisomerase II" by M. Potmesil *et al.*, which appears on pp. 3537-3543 of the June 15, 1988, issue, contains several errors on p. 3537. In the list of authors, the name of the seventh author should be spelled Thomas

J. Forlenza. In the sixth line of Footnote 3, the words "single-strand" should be deleted and a closing parenthesis should be inserted after ( $^{14}\text{C}$ ). In the seventh line of Footnote 3, the phrase "single-strand breaks;" should be inserted after the words "DNA protein-associated." (The whole phrase should thus read, "PAB, DNA protein-associated single-strand breaks;") Immediately following this insertion, the abbreviation PTX followed by a comma should be inserted. Finally, in the eighth line of Footnote 3, a period should be inserted after the word "buffer" and the last word "breaks" (including period) should be deleted.

Figure 2 on p. 2613 of the article "Evaluation of Ricin A Chain-containing Immunotoxins Directed against CD19 and CD22 Antigens on Normal and Malignant Human B-Cells as Potential Reagents for *in Vivo* Therapy" by M-A. Ghetie *et al.* (pp. 2610-2617 of the May 1, 1988, issue) does not clearly show Lanes 4-7. Figure 2 is therefore reprinted below.

The article "Radioimmunotherapy of Human Colonic Cancer Xenografts with  $^{90}\text{Y}$ -labeled Monoclonal Antibodies to Carcinoembryonic Antigen" by R. M. Sharkey *et al.*, which appears on pp. 3270-3275 of the June 1, 1988, issue, contains an error in Table 2 on p. 3272. In the last two horizontal columns, the data for blood and bone were reversed. The correct version of Table 2 is reprinted below.

Table 2 Tissue distribution of  $^{111}\text{In}$ -labeled NP-2 and anti-AFP Mab in nude mice bearing GW-39 colonic tumor xenografts

Tissue	Day Post-Radioantibody			
	1	3	7	14
GW-39	18.14 ± 1.60 <sup>a</sup>	20.65 ± 2.06	22.81 ± 3.03	14.06 ± 4.67
Liver	7.45 ± 1.54	8.10 ± 0.77	8.12 ± 0.80	6.28 ± 0.61
Spleen	9.50 ± 1.77	7.97 ± 1.10	6.76 ± 1.28	9.79 ± 2.32
Left Kidney	10.18 ± 2.20	10.79 ± 0.61	10.10 ± 0.54	7.37 ± 0.27
Lungs	8.36 ± 1.20	6.51 ± 0.80	4.75 ± 0.35	3.40 ± 0.45
Bone	3.50 ± 0.51	3.99 ± 0.70	4.38 ± 0.46	3.75 ± 1.0
Blood	18.12 ± 3.31	10.27 ± 1.23	6.57 ± 1.09	3.12 ± 0.95

<sup>a</sup> Percent injected dose per gram tissue (means ± S.D., n = 3)
