COLLECTED PERSPECTIVES IN CANCER RESEARCH

Oncogenes, natural killer cells, breast cancer treatment modalities, colon cancer, and retroviruses, including their relationship to AIDS, are among the topics of current interest featured in the recently published *Collected Perspectives in Cancer Research: 1986–1987*. Containing the twenty-two articles published as "Perspectives in Cancer Research" in the Volumes 46 and 47 of the journal *Cancer Research*, the compilation presents the insights and interpretations of recognized authorities in the study of cancer. Each article explores contemporary and sometimes controversial areas of investigation, analyzing recent progress in cancer research and offering ideas on where such research should be heading. This collection of incisive and stimulating viewpoints will serve as a valuable resource and teaching tool for the cancer research community. Copies of this publication may be ordered from the Subscription Fulfillment Department, Waverly Press, Inc., P.O. Box 64473, Baltimore, Maryland 21264-0473, at a price of \$9.00 per copy. Orders outside the U.S. add \$2.00/copy to offset postage costs.

RECENT DEATH

We regret to report the death of Dr. Charles J. Sternhagen, former Director of the Alaska Cancer Center, Anchorage, Alaska. Dr. Sternhagen was an Active Member of the American Association for Cancer Research.
