Czechoslovakia

SYMPOSIUM ON THE CLINICAL USE OF ARABINOSYL CYTOSINE

A one-day symposium on the clinical use of Arabinosyl Cytosine (Ara-C) in the therapy of acute leukemia will be held in Bethesda, Maryland, on October 10, 1969, under the sponsorship of the Chemotherapy Program, National Cancer Institute. All interested investigators are cordially invited. For further information, please write to:

Dr. Stephen K. Carter, Chief
Cancer Therapy Evaluation Branch
Building 37 – Room 5A15
National Cancer Institute
Bethesda, Maryland 20014

Erratum

In the article "Studies on the Asparagine Requirement of the Jensen Sarcoma and the Derivation of Its Nutritional Variant" by M. K. Patterson Jr., M. D. Maxwell, and E. Conway, published in the February 1969 issue of *CANCER RESEARCH*, the following correction should be noted. The sentence beginning on page 299, column 2, line 13, should read, "These authors suggest that derepression accounts for the major part of the enzyme increase."
