CORRECTIONS

Volume 69

page 295, left-hand column, lines 9-12, the sentence beginning "Due in part ..." should read:

Due in part to a small but statistically significant decrease in urinary sodium excretion (2.6 ± 0.5 to $0.9 \pm 0.3 \mu\text{mol}/\text{min}$; $P < 0.05$), osmolar

page 296, Fig. 1 and legend inaccuracies and omissions are corrected in this version:

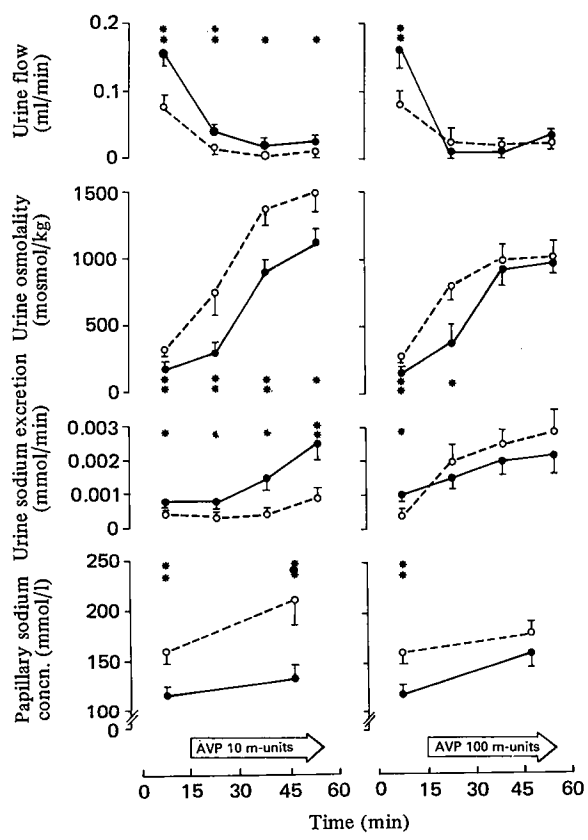

FIG. 1. Effect of vasopressin (AVP: 10 and 100 m-units) on urine flow, osmolality and sodium excretion and also papillary sodium concentration in control (●—●) and indomethacin treated (○- - -○) rats. Significantly different between control and indomethacin groups: * $P < 0.05$; ** $P < 0.01$.

CORRECTIONS

Volume 69

page 302, Fig. 1(b), ordinate units for PRA (plasma renin activity) should read:

pmol of ANG II h⁻¹ l⁻¹

page 303, Table 2, column 4, units beneath the heading Na⁺* should read:

(mmol/h)

page 303, Table 3, column 7, units beneath the heading PRA* should read:

(pmol h⁻¹ l⁻¹)
