

CORRECTIONS

Volume 82

The unfolioed title and half-title pages, volume contents (pp. iii–ix), author index (pp. xi–xiii) and subject index (pp. xv–xxiii) should have appeared after p. 724.

Volume 83

p. 210, Fig. 6 should appear as:

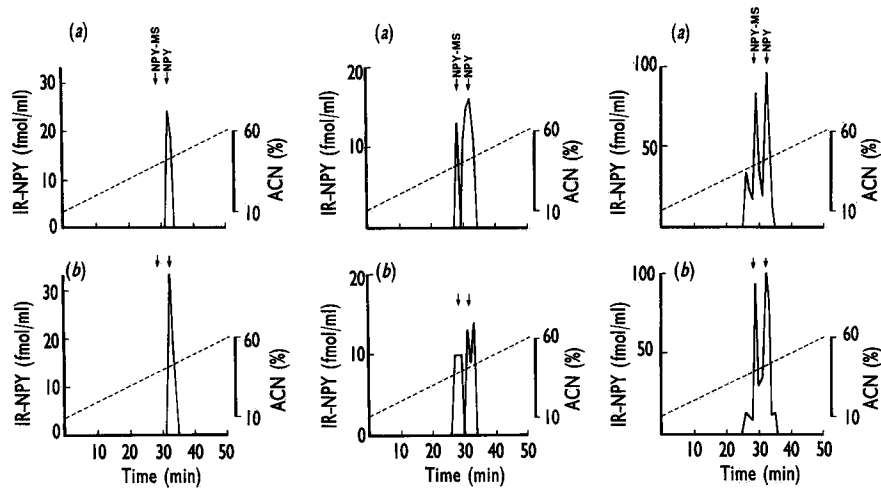

Fig. 6. Reverse-phase h.p.l.c. of the plasma extracts from the patients with phaeochromocytoma (left), ganglioneuroblastoma (middle) and neuroblastoma (right) measured by the antibody to human NPY (5178-7-18) (a) and by the antibody to porcine NPY (4137-8-09) (b). Abbreviations: NPY-MS and NPY, elution positions of human NPY with methionine sulphoxide and human NPY, respectively. The broken line indicates the gradient of acetonitrile (ACN).
