The authors regret that an error was inadvertently introduced in Table 1 while copying data from the original data files to the article cited above. For the case subjects, adult control subjects, and youth control subjects, respectively, the following mean \pm SD data were presented: fasting glucose (mg/dL) 110.44 ± 23.86 , not available (N/A), 110.44 ± 23.86 ; fasting insulin (μ U/mL) 30.93 ± 22.33 , N/A, 30.93 ± 22.33 ; and HbA_{1c} % (mmol/mol) 6.01 (42) ± 0.75 (5.8), 7.53 (59) ± 2.32 (16.2), 6.73 (50) ± 1.84 (17.8). The correct data for these subjects are fasting glucose (mg/dL) 154.36 ± 88.99 , 87.93 ± 10.61 , 84.20 ± 8.49 ; fasting insulin (μ U/mL) 31.16 ± 26.55 , N/A, N/A; and HbA_{1c} % 6.75 ± 1.86 , N/A, N/A.

The authors apologize for the error.

The online version of the article (<https://doi.org/10.2337/db20-0443>) has been updated with the correct data.
