82nd SCIENTIFIC SESSIONS

The 82nd annual American Diabetes Association Scientific Sessions will be held in New Orleans, Louisiana, on 3–7 June 2022, at the Ernest N. Morial Convention Center. The largest of its kind, this meeting brings together scientists and health care professionals from around the world who are involved in diabetes research and care. Attendees choose from thousands of original presentations given by leading experts in the field. The American Diabetes Association is currently planning a hybrid event. For more information, please visit professional.diabetes.org/scientific-sessions.

COMPENDIUM: NEW EVIDENCE-BASED THERAPIES FOR COMPLEX DIABETIC FOOT WOUNDS

ADA's most recently published clinical compendium is the third in a series of ADA compendia on the diabetic foot. Previous installments focused on the diagnosis and management of diabetes foot complications and infections. Here, the authors turn their attention to the latest evidence-based therapies for diabetic foot ulcers. This compendium is supported by an unrestricted educational grant from Advanced Oxygen Therapy, Inc. (AOTI). To access this and other clinical compendia for free, visit professional.diabetes.org/monographs.

MENTAL HEALTH PROVIDER DIABETES EDUCATION PROGRAM

The American Diabetes Association is making strides to increase experts in the field and ensure support for the psychosocial challenges faced as we continue to help people with diabetes and their families thrive. To view a list of resources, including a mental health toolkit and video on-demand program, please visit professionaleducation.diabetes.org.

OVERCOMING THERAPEUTIC INERTIA CERTIFICATE (OTI) PROGRAM

The ADA's Overcoming Therapeutic Inertia (OTI) CE Certificate program is designed to empower clinicians caring for people with diabetes with knowledge and strategies to be a barrier buster. The OTI Certificate bundle allows clinicians to access all OTI modules at a discounted price in addition to various exclusive benefits. For more information on this and other available programs, please visit professionaleducation.diabetes.org.

STANDARDS OF MEDICAL CARE IN DIABETES—2022

American Diabetes Association's "Standards of Medical Care in Diabetes" is based on a complete review of the relevant literature by a diverse group of highly trained clinicians and researchers. After weighing the quality of evidence, from rigorous double-blind clinical trials to expert opinion, recommendations are drafted, reviewed, and submitted for approval to the American Diabetes Association Executive Committee. Access the 2022 Standards of Care at diabetesjournals.org/care/issue/45/Supplement_1.

STANDARDS OF CARE 2022 WEBCAST

Presented by the American Diabetes Association's Chief Scientific and Medical Officer, Robert Gabbay, MD, PhD, this webcast presents the key updates and highlights from *Standards of Medical Care in Diabetes—2022*. To access the webcast, please visit professional.diabetes.org/SOC.

DIABETES CORE UPDATE PODCASTS

Diabetes Core Update is a monthly audio podcast devoted to presenting and discussing the latest clinically relevant articles from the American Diabetes Association's scholarly journals. *Diabetes Core Update* audio podcasts are free and can be accessed through iTunes or RSS feed. For more information, please visit diabetesjournals.org/journals/pages/diabetes-core-update-podcasts.
