

Erratum

Erratum. COVID-19 Severity Is Tripled in the Diabetes Community: A Prospective Analysis of the Pandemic's Impact in Type 1 and Type 2 Diabetes. Diabetes Care 2021;44:526–532

<https://doi.org/10.2337/dc22-er05c>

In the article cited above, a transcription error resulted in the presentation of incorrect data for three entries in Table 2. The odds ratio (OR) for male sex was given as 1.04; the correct OR is 0.79. The OR for BMI was given as 0.133; the correct OR is 1.04. The *P* value for one diabetic ketoacidosis admission within the past year was given as 0.21; the correct *P* value is 0.021. The authors apologize for the errors.

The online version of the article (<https://doi.org/10.2337/dc20-2260>) has been updated with the correct data.
