In the article cited above, the y axis in Fig. 3C was incorrectly labeled “% Change in FIB-4 Index.” The correct label is “Mean change in FIB-4 index.” Figure 3C and its corresponding legend text have been amended accordingly.

In addition, the legend text for Fig. 3D did not match the data reported. Panel D represents mean change, not percent change, in NAFLD fibrosis score (NFS). The legend text has been corrected to read “D: Mean change in NFS.”

As a result of these changes, the title of Fig. 3 has been amended from “Percent change in hepatic parameters from baseline to week 54” to “Change in hepatic parameters from baseline to week 54.”

The authors apologize for the errors.

The online version of the article (<https://doi.org/10.2337/dc20-2151>) has been updated to correct the errors.
